Laptop Stand with Cooling Fans

Thank you for choosing Laptop Cooling Stand. To ensure optimum performance and safety, please read these instructions carefully before operating this product.
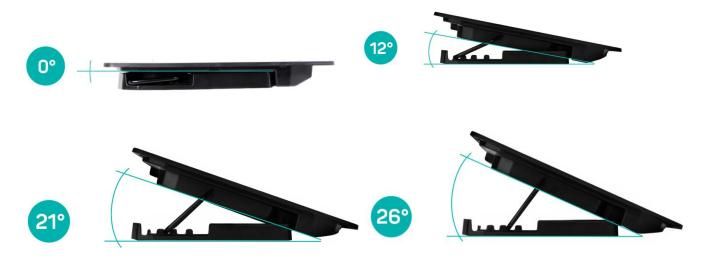

Weight capacity: 5.5kg

Operation

Insert the USB connector end of the cable into your laptop's USB port, and connect the other end of the USB cable into the cooling stand 's USB port, then the cooling fans will start to work.

The USB connection provides power to run the cooling fans on the stand and data connection for use with other devices, such as external keyboards, mouse, USB lights, USB fans, etc., so please do the safekeeping for this USB connector.

There are 5 use heights of this stand, please adjust the hook frame to the different positions for suitable angles based on your need:

30°

Then follow the direction of the arrow to pull up the clip to fix the laptop.
