

360° SWIVEL HEAD MOP TECHNOLOGY

360° Rotating head to help reach those tough areas

Wet or Dry Usage: Perfect for home, kitchen, bathroom, office, corner cleaning. Use wet for a deep clean or use dry for dusting floors, ceilings, windows, and other surfaces.

MOP ASSEMBLY

1. Insert the three plastic tongues into the corresponding pad sleeves, pull over bottom of mop head to opposite side, and insert other set of tongues.
2. Press the grey tabs back into place to secure the pad.
3. Insert the stainless steel mop pole into the mop head.
4. Screw middle mop pieces onto bottom rod attachment (2 pieces).
5. Screw top soft grip handle onto top middle mop piece.
6. Congratulations! You have assembled your mop.

3 IN 1 MOP AND BUCKET SET

PATENTED THREE-CHAMBER SEPARATION TECHNOLOGY

The bucket separates dirty from clean water providing you with the cleanest floor

CLEANING PREPARATION

Step 1: Push two sides buttons open lid. Add clean water and your favourite detergent into the clean water reservoir.

Step 2: Insert lid onto bucket and make sure the 2 grey release buttons are firmly locked into place.

Step 3: Turn white knob to add clean water into the middle reservoir to start cleaning (3/4 full is recommended at the start).

Note: Avoid filling the center chamber all the way to prevent oversaturation. Use more or less water based on your particular floor type and for washing and drying your floor.

CLEANING PREPARATION

Step 4: Swivel to change direction of pad so both ends get saturated.
Note: When starting only half of the mop pad may become saturated. This is normal when starting and the pad will become fully saturated after the first few scrubs.

Step 5: Start mopping! The 360- swivel head will help with all the tough areas.

-Repeat Step 4 To clean and moisten mop pad.

-Repeat Step 3 When water in middle reservoir starts to run low.

-When finished, pull out black plug at bottom of mop bucket to remove dirty water. Open the lid to clean the whole bucket. Remove mop pad and place in the washer/dryer.

SYSTEM PARTS

MOP PARTS

- 1 Soft grip handle (top of mop pole)
