- For indoor use only.
- This light set is constructed with non-replaceable LED. DO NOT attempt to replace any of the LED in the light set.

### Instruction

1. Before adhering strip lights, clean the surface of the area you will be placing the lights on. It is recommended to apply your strip lights on smooth stable surfaces. It should not be placed on rough, textured or painted wall surfaces or any surfaces that can bend or move.
2. Peel off the backing strip off the adhesive tape.
3. Press and hold the light strip firmly against the surface.
4. Put 2x 1.5V AAA batteries into the battery slot.
5. Connect the USB cable to the USB port or USB wall charger with DC5V 2A output.
6. Turn on the LED backlight by pushing the ON button on the remote control.
7. Select the desired colour or the desired effect and push the corresponding button on the remote control.
8. Please note that the colour settings are mixed colours. For this reason, the colour tints may exhibit minor deviations. Even white light is a mixed colour and thus not a purely white colour tint!
9. Set the desired colour brightness using the buttons to increase/decrease the intensity of colour.
10. Push the OFF button to turn off the LED backlight.
