

15x11cm

Microwave Cleaner – Safe Use Instructions

- 1.Remove the cap from the microwave cleaner.
- 2.Fill the body with equal amount of water and vinegar (eg. 100ml vinegar + 100ml water).
- 3.Secure the cap tightly back onto the cleaner.
- 4.Place the cleaner upright in the center of your microwave.
- 5.Microwave for 5–7 minutes.
- 6.Wait for 2 minutes after heating before opening the microwave to allow steam to settle.
- 7.Carefully remove the cleaner (it will be hot!) and wipe down the interior of the microwave with a clean cloth.

Important:

- › Do not overfill the cleaner to prevent spillage.
- › Handle with care after heating; the cleaner and liquid inside will be extremely hot.
- › Do not use harsh chemicals inside the cleaner – only water and natural solutions like vinegar or lemon juice.
- › Keep out of reach of children during and after use.
- › Do not exceed recommended time to avoid damage or overheating.
