

ORBITAL LOGIC GAME

instructions

Contents

- ▶ 1 x shifting game board
- ▶ 8 x white balls
- ▶ 8 x black balls
- ▶ 2 x ball trays

Game objectives

- ▶ Align your 4 balls in a horizontal, vertical or diagonal line to win.

Horizontal

Vertical

Diagonal

Game Settings

- ▶ Pull up the mechanism knob in the centre of the game board and rotate it 90 degrees to lock (see Diagram 1).
- ▶ Each player selects a colour.

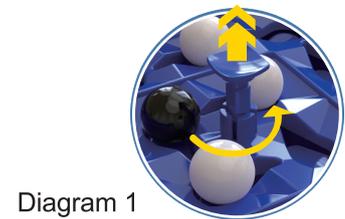

Diagram 1

Game Guide

- ▶ Each player takes a turn to place a ball on the board. Once a ball is placed on the board, it cannot be moved again, but only be moved by the opponent (see Diagram 2).

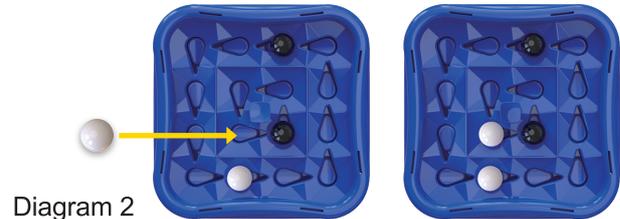

Diagram 2

- ▶ The player need press the mechanism knob in the centre of the board after each ball is placed, the balls on the board will move one square anti-clockwise (see Diagram 3).

Diagram 3

- ▶ At the start of the second round, each player can move an opponent's ball by one square (this step can be skipped), and the ball can only be moved to the front, back, left, or right of an adjacent space (see Diagram 4).

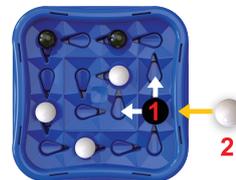

Diagram 4

Game Over

- ▶ The game ends immediately when the following two situations occur:
A player completes the connection of their four balls. If all the balls are placed on the board and no one has completed the connection of 4 balls, then the mechanism knob needs to be pressed five times in succession. As long as a player's balls connects four balls during the five presses, the player wins. If no one has connected four balls after five presses, the game is a tie.
