

Ultimate Jewellery Activity Tower

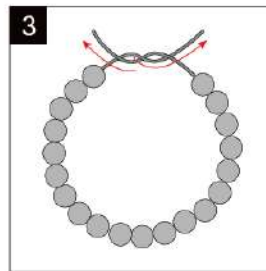

String method 1:

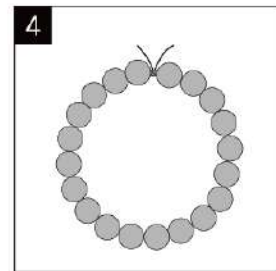

1. String the thread with the beads.

2. Cut the threads to the required length.

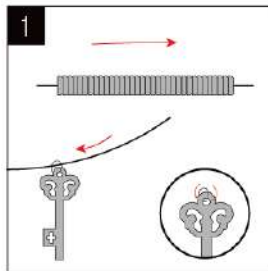

3. Tie the knot twice as shown in the picture and pull it tight.

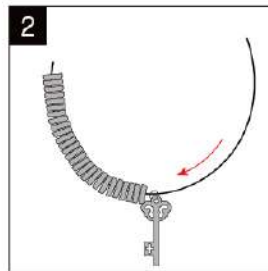

4. Trim the excess thread for a neat looking bracelet.

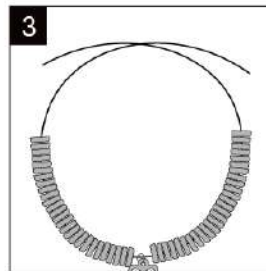

String method 2:

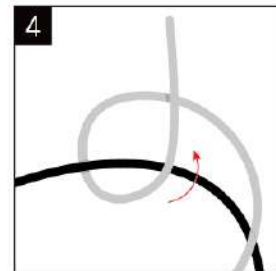

1. Thread beads and a charm onto the string. The charm needs to be attached with a metal ring.

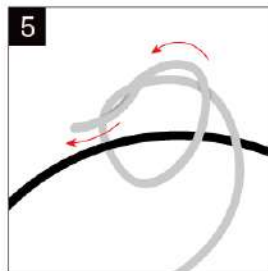

2. Repeat the bead pattern on the other side.

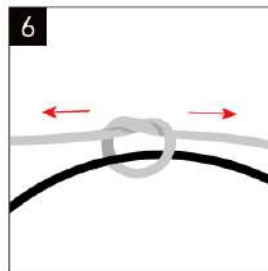

3. Cross the string.

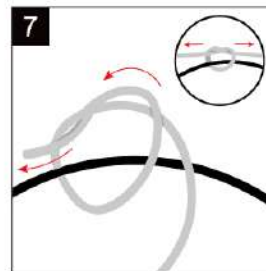

4. Wrap one end of the string around the other end from the back.

5. Pass one end of the string through the circled hole.

6. Tie the knot by pulling both sides of the string.

7. Tie the other end in the same way.

8. Adjustable bracelet finished!
