Mosaic Frame Craft Kit Instruction Manual

Kit Includes

- › 1 × MDF photo frame
- › 1 × glass mosaic tiles
- › 1 × grout
- › 1 × scraper
- › 1 × tube of glue
- › 1 × mixing bowl
- › 1 × sponge
- › 1 × wooden stick
- › 1 × instruction sheet

Guide Image

Tips

- › Clean the MDF base & tiles with a damp cloth before beginning.
- › Cover the work area with disposable paper or a mat.
- › Keep the gaps between tiles approximately 3mm or less.
- › Ensure grout is completely dry before using frame.

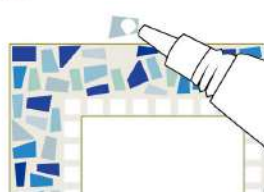

How To Make A Mosaic Frame

1

Place the tiles on the MDF base in your desired pattern, leaving small gaps between tiles.

2

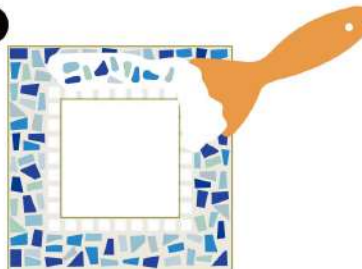

Glue each tile onto the base and allow approx. 30 minutes for the glue to dry.

3

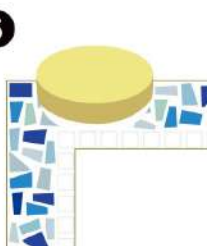

Pour the grout into the mixing bowl. Gradually add water while stirring until it forms a paste texture. 1 bag of grout requires approx. 40ml of water.

4

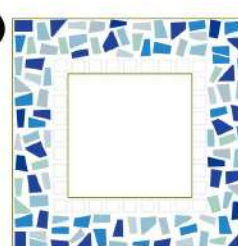

Using the scraper, apply the grout to cover the tiles completely. Spread the grout to fill all of the gaps. Scrape off excess grout from the top of the tiles.

5

Wet the sponge with warm water and clean the tiles until they are clear of grout, leaving grout only in the gaps. Allow approx. 5 hours for the grout to dry.

6

Clean off any remaining grout. Then the mosaic frame is complete and ready to use.
