Drink Dispenser

**1.** Open the lid.

2. Place one hand inside the dispenser and press down. With your other hand on the upper rim, pull to separate the parts.

3. To install the faucet, take one of the sealing rings and place it as shown in the image.
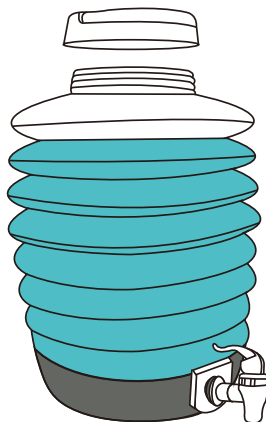

Sealing Ring

Faucet

4. Insert the faucet with the sealing ring into the hole in the drink dispenser. Then, place the second sealing ring and the nut inside the dispenser. Tighten the nut securely to prevent any leaks.
Note: While tightening the nut, hold the faucet in place to prevent it from rotating.

Base

5. Add your preferred beverage and close the lid.
Note: Do not overfill the dispenser. Make sure the lid is screwed on tightly so it is firmly attached.

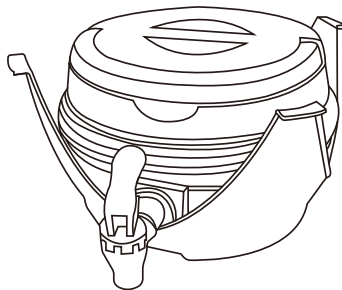

6. Place the dispenser on the main base and serve your drink.

7. To fold the dispenser, open the lid and press down on the dispenser. Then, flip the main base and store it.
Note: Do not fold the dispenser while the lid is closed.

CAUTION: THE LID MUST BE TURN TIGHT BEFORE HOLDING THE TAP.
