WARNING: Changes or modifications to this unit's external appearance may affect its safety. Therefore, it is prohibited to change or modify the unit's appearance without the manufacturer's written permission.

DANGER: This equipment has been tested and found to comply with the limits for a Class II digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated normally. However, this equipment can cause radio noise frequency interference, and if not installed and used properly, it may cause harmful interference to radio communications. This equipment has been tested and found to comply with the following interference provisions:

- When the equipment is used indoors, there is no significant interference to radio communications.
- If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into a different wall outlet.
 - Consult the dealer or the manufacturer for assistance.

Restart or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into a different wall outlet.

Consult the dealer or the manufacturer for assistance.

Contact the dealer or an experienced radio/TV technician to help.
