PRACTICE NET INSTALLATION STEPS

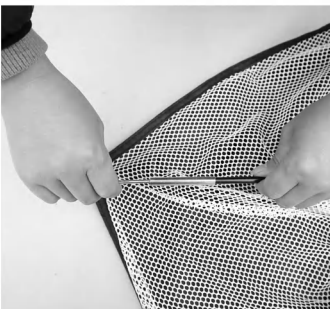

Step 1: Unpack and Connect the Brackets

Open the package. It contains Brackets, Anti-shock cloth and Practice net
Connect the brackets as illustrated in the images.

Step 2: Assemble the Frame

Unfold the practice net.
Insert the two brackets through the fabric sleeves of the net, as shown in the images.
By the end of this step, the two brackets should intersect to form an "X" shape.

Step 3: Secure the Frame

Insert one end of each bracket into the iron hook at the base, as shown.

Please note:

- One end of the bracket should fit easily into the hook.
- The other end may require a small amount of additional force.

There is no need to be concerned about damaging the brackets during this process, as they are designed to be strong and flexible.

Step 4: Assemble the Anti-shock cloth

Please open the anti-shock cloth and hang it in the four corners as shown in the figure.
At this point, the entire installation process is over. The entire installation process takes about 10 minutes. After installation, you can place the practice net where you like, swing your club and practice.
