Product specification

- USB input: 5V DC 1000mA 5W
- This lamp contains non-replaceable LED bulbs

Instructions for installation:

1. Open the top lip. ①
2. Fill tap water into the container. ②
3. Put the jellyfish into container. ③
4. Add 4 drops of dish soap (not included). ④
5. Stir the water with the provided stick to dissolve the dish soap in the water and remove air bubbles from the container and jellyfish. ⑤
6. After closing the lid, connect the provided USB cable to the power supply, and then turn on the switch to use.
7. If you see air bubble trapped, shake them off using the stick included.

Trouble shooting

Problem	Possible Cause	Solution
The jellyfish is not swimming smoothly.	Dish soap is not enough.	Add more 1-2 drops dish soap to make the jellyfish swim more smoothly.
