Important Safety Warnings

This product contains a built-in, non-replaceable rechargeable lithium-ion battery.

Do not attempt to replace, disassemble, crush, puncture, short-circuit, or incinerate the battery or the device.
Do not expose the battery or device to excessive heat, fire, direct sunlight, or temperatures above 45°C.
Do not immerse the device or battery in water or other liquids. Avoid exposing it to rain, moisture, or high humidity.
Do not use or charge the device if it appears damaged (cracked casing, bent connectors, leaking, swelling, unusual odor, overheating, or deformation). If any of these occur, STOP USING IMMEDIATELY. Place the device in a fireproof container away from flammable materials and contact Customer Service. Do not touch leaking material.

Keep the device and its components away from small children. The battery poses ingestion and chemical burn hazards.
Charge ONLY using the provided USB-C cable connected to a certified 5V/1A USB power adapter (not included). The power adapter must comply with relevant Australian safety standards. Using incompatible or damaged cables or chargers may cause fire, electric shock, or damage.
Do not charge the device near flammable materials. Charge only on a stable, non-flammable surface in a well-ventilated area.
Do not leave the device unattended while charging. Disconnect the charger once charging is complete.

The charging indicator light will be red while charging and will turn off when fully charged. A full charge typically takes approximately 2.5–3 hours.
Do not operate the printer function while the device is charging.

Before cleaning, ensure the device is disconnected from the charger/power source and powered off.
Clean the exterior surfaces only with a soft, dry cloth. DO not use liquids, solvents, or abrasive cleaners.
Regularly inspect the USB cable, charger (if used), and the device itself for any signs of damage (fraying, cracking, deformation). If damage is found, STOP USING IMMEDIATELY and contact Customer Service.

To maintain optimal battery health, it is recommended to perform a full maintenance charge (charge to 100%) approximately once per month, especially if the device will be stored unused for extended periods. Avoid storing the device with a completely depleted battery for long durations.

How to Use
Insert memory card

WARNING!

⚠ CHOKING HAZARD: Memory cards are small parts. Keep away from children under 3 years.
⚠ ADULT SUPERVISION REQUIRED during installation.

Usage tips:
➤ Please plug the TF card as picture showing and insert the MicroSD (TF) card in incorrect direction could damage the TF card slot
➤ Note: A 32GB card is pre-installed for photo/video storage.
➤ Power rule: Cord must be inserted before powering on to capture media.
➤ Supports 8GB-64GB microSD (TF) cards (Class 10 or higher, purchased separately).
➤ Video recording: Maximum 3 minutes per clip (or until card is full).

Troubleshooting:
If card isn't detected:
Power off device.
Reinsert card, ensuring correct orientation.
Use only compatible cards (exFAT/FAT32 formatted).

Install paper

➤ Secure the paper compartment buckles on both sides and open the cover.
➤ Insert the print paper roll as shown in the picture, pull out a small portion of the paper, and close the cover.
➤ Long press the power button to turn on the device for use.

Usage tips
➤ Please charge the device before use. It takes approx. 2.5-3 hours to fully charge. Only use the provided cable to charge the device.
➤ When opening the paper compartment, please open it in the direction indicated. Do not use brute force to avoid damaging the machine.
➤ When experiencing faint prints or paper jams, please check whether the paper roll is installed backwards.
➤ For correct installation of printing paper, please refer to the picture above.
➤ You need to open the paper compartment and leave the roll paper extending about 1 inch (around 2.54cm) outside before first printing, as shown in the picture above. Then it will print automatically.
➤ If the device fails to power on/off or becomes unresponsive, insert a toothpick or pin into the reset hole for several seconds. The printer will automatically restart (power off and on). After rebooting, it will restore to factory settings.

Power on/off

➤ Long press the power button to turn the device on or off.
➤ After powering on, the screen will display the main page as shown below. Press the left [◄] and right [►] buttons to select the desired mode.

If the device is inactive:
➤ The screen will automatically turn off after a period of inactivity. You can go to [Settings] → [Screen Saver] to set the screen-off time.
➤ By default, the device will automatically shut down after 5 minutes. You can go to [Settings] → [Auto Power Off] to set the shutdown timer.

Accessing the settings menu
After powering on:
➤ Select the Settings icon to enter the settings menu.
➤ Alternatively, short press the [⚙] button to directly access the settings menu in Camera/Video mode.

Date &Time Setting

➤ Navigate to [Date/Time] using [▼], then press [⚙].
➤ Press [⚙] to switch between Year/Month/Day/Hour/Minute/Second)
➤ Use [▲]/[▼] to adjust values and Press [⚙] to confirm.

Formatting Memory card

➤ In the settings menu, press [▼] to scroll to [Language].
➤ Press [OK] to select it.
➤ Use [▲]/[▼] to choose your language, then press [⚙] to save.

Language Setting

Print Settings

➤ Print Modes: Gray Print /Dot Print
➤ Density Levels: 7 levels (1-7)
➤ Note: The [⚙] button cannot open the settings menu directly in File Browsing or MP3 mode.

WARNING: Formatting erases all files. Back up your data first.
➤ All photos and videos will be deleted. Proceed with caution.
➤ Always format a new memory card in the device before initial use. (Otherwise, it may not function properly.)

Entering camera mode

➤ After powering on, the device displays the main screen. Select the Camera icon and press [⚙] to confirm. Press [▲]/[▼] to return to the main menu.

Taking Photos & Printing

➤ After entering the camera mode, short press [⚙] button to take a photo or print after taking the photo

Date Stamp / Language / Beep Sound / Screen Savers / Auto Power Off / Format / Date/Time / Default Setting / Version settings

(Settings menu specifications table — various options including On: Displays timestamp on photos / Off: Hides timestamp; Multiple languages options available; On: Enables button tones / Off: Disables button tones; screen auto-off timer; Auto power off timer; Format; Date/Time; Reset to factory; firmware version)

After entering camera mode:
➤ Frames/stickers/filters/picture effects / Time-lapse/Burst shooting: short press the [▲]/[▼] buttons to switch.

In camera mode:
➤ Press [⚙] to take a photo.
➤ Press [⚙] to toggle instant printing (icon appears on screen).
➤ Press [⚙] to access print density/mode settings.
➤ Press [◄] → File Browser to view saved photos/videos.

Additional Controls:
➤ Switch front/rear camera: Long-press [⚙].
➤ Zoom (5x-6x): Long-press [▲] (zoom in) or [▼] (zoom out).

Note: Zoom unavailable in video mode.

Effects & Modes:
➤ Press [▲]/[▼] to cycle through:
➤ 22 Frames/Stickers
➤ 5 Filters
➤ 4 Picture Effects
➤ Time-Lapse/Burst Mode

Note: Effect is unavailable in video mode.

Time-lapse & Burst shooting
➤ Select mode via [▲]/[▼].
➤ Icons appear:
➤ Time-Lapse: Press [⚙] to set delay (3s⟳/5s⟳/10s⟳).
➤ Burst shooting: Press [⚙] to set shots
➤ Standard Burst: (3 shots ⟳)/(5 shots ⟳)
➤ Deluged Burst: 55+(shots ⟳)
Note: Unavailable in video mode.

Video Recording
Enter video mode
Main menu → Video icon → Press [⚙]

Operations:
➤ Browse files: Press [▲]/[▼].
➤ Play/pause video: Press [⚙].
➤ Record photo: Press [⚙].

Recording
➤ Press [⚙] to start/stop and save recording.
➤ Switch cameras: Long-press [⚙] (when not recording).

Warnings:
➤ Insert memory card before use.
➤ Max 3 minutes per video (records until card full).
➤ No zoom/effects during recording.
➤ Accidental press: Short Pressing [⚙]or [▼] will erase the video and exit recording.

File Management
Access file browser:
Main menu → File Browser icon → Press [⚙]

Import Songs:
➤ Remove memory card → Insert into card reader (sold separately).
➤ Copy MP3 files to card's /MP3 folder.
➤ Reinsert card into device.

Tips:
➤ Use card reader or USB cable for transfers.
➤ Do not disconnect during transfers.
➤ Device has no internal storage (card required).

MP3 Playback
Access MP3 Mode
Main menu → Music icon → Press [⚙]

Controls:
➤ Select game: Press [⚙]/[⚙].
➤ Start game: Press [⚙].
➤ Directional controls: [▲]/[▼]/[◄]/[►].
➤ Exit game: Press [◄].

Educational game

Tetris / Push Box / Snake / Maze

Printing Methods

12 Month Warranty

Thank you for your purchase.

Our product is warranted to be free from defects in materials and workmanship for the period stated above, from the date of purchase, provided that the product is used in accordance with accompanying recommendations or instructions where provided.

This warranty is in addition to your rights under the Australian Consumer Law. For New Zealand customers, this warranty is in addition to statutory rights observed under New Zealand legislation.

We will provide you with your choice of a refund, repair (where possible) or exchange (multiplying dependent) for this product if it becomes defective within the warranty period. The business will bear the reasonable expense of claiming the warranty.

This warranty will no longer apply where the defect is a result of alteration, accident, misuse, abuse or neglect.
Please retain your receipt as proof of purchase and contact our Customer Service Centre as listed below, for the entity you purchased this product from, for any difficulties with your product. Warranty claims and claims for expense incurred in returning this product can be addressed to the respective Customer Service Centre.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
