## Cautions

---

### Precautions and Maintenance

- For indoor use only.
- To avoid risk of fire or electric shock, do not expose the unit to moisture or condensation.
- To avoid overheating, do not block the ventilation holes on the back of the Digital Calendar.
- Keep the Digital Calendar out of direct sunlight.
- Do not dismantle the Digital Calendar. There is a risk of electric shock and there are no user-serviceable parts inside. Dismantling the Digital Calendar will void your warranty.

### Cleaning the LCD Screen

- Treat the screen carefully. Because the screen of the Digital Calendar is made of glass and it would be broken or scratched easily.
- If fingerprints or dust accumulate on the LCD screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth to clean the LCD screen.
- Moisten the cleaning cloth with the cleaning solution and apply the cloth to the screen.

## 2. Getting Started

### 2.1 Create Account and Setup Device

#### 2.1.2 Support Device Deletion

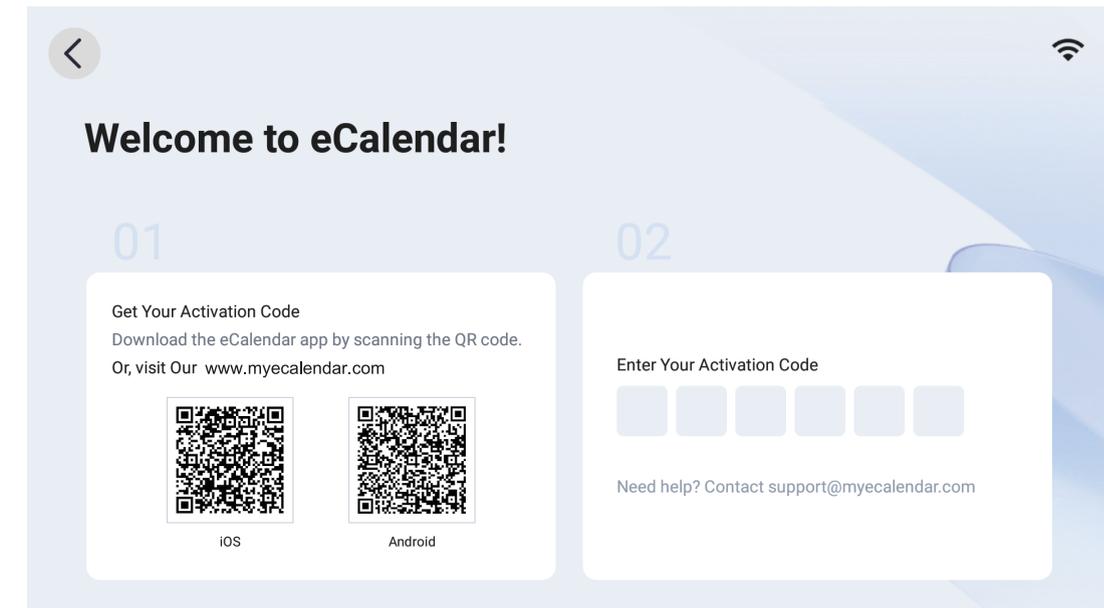

— 07 —

## 2. Getting Started

### 2.1.3 Initial Setup on Device

Turn on your eCalendar, select (your preferred) language, connect to wifi and choose the time zone and city, then enter your 6-digit activation code to get started. (PS:The weather function is activated only after you select the city)

— 08 —

## 2. Getting Started

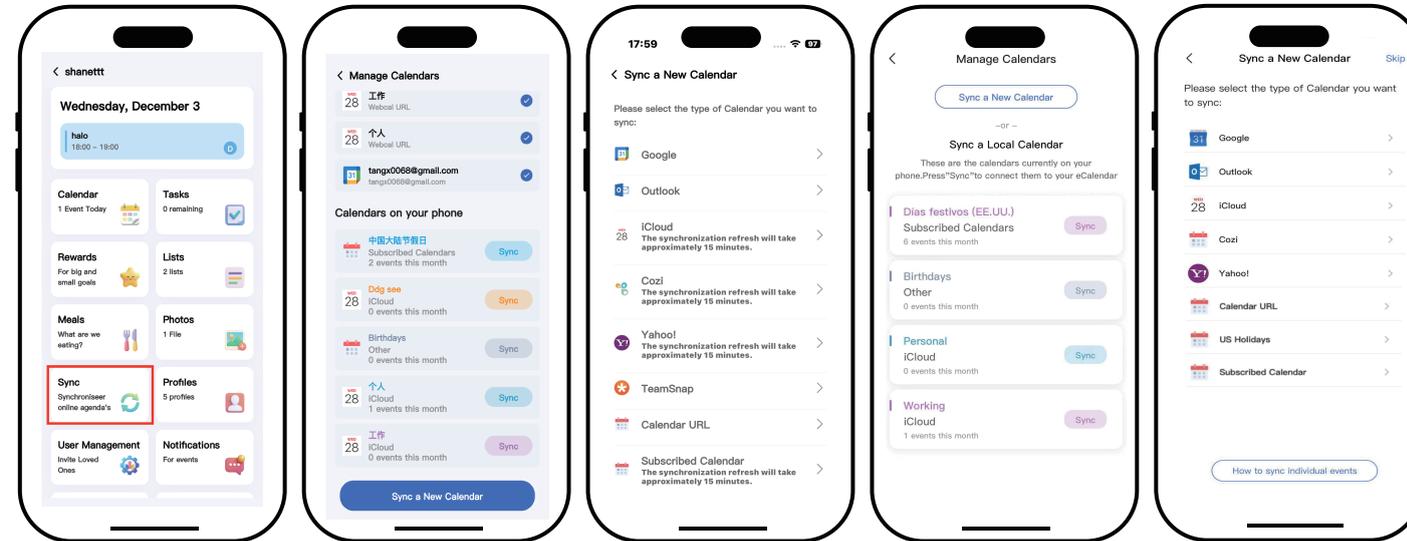

### 2.2 Syncing a New Calendar

Syncing can only be done through the app.

When you sync a source calendar, (such as Google, iCloud, Outlook) with eCalendar any changes on your source calendar will automatically show up on the digital calendar.

1. Open Sync on the home screen.

2. Select "Sync a New Calendar". 

## 2. Getting Started

### 2.2.1 Syncing a Local Calendar on Your iPhone

1. Please first have access to a local calendar on your iPhone, not available on Android phones.

2. Select Calendars (Compatible with Different iOS Versions)

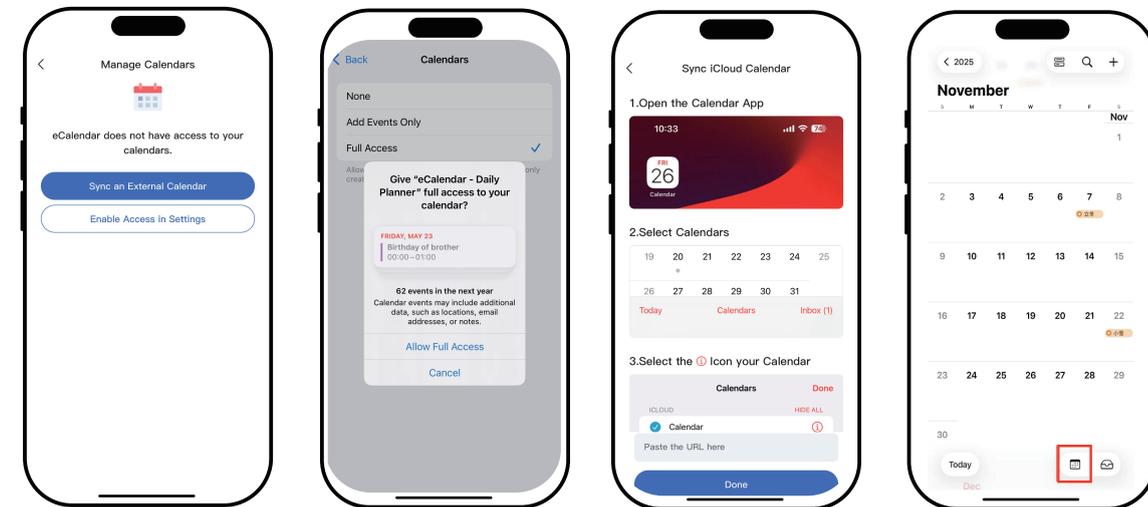

Please follow the corresponding operation based on your iPhone's system version:

For iOS versions below 26

Click the " ⓘ " to access the calendar selection interface.

For iOS 26 and later versions, Tap the  button to access the calendar selection interface.

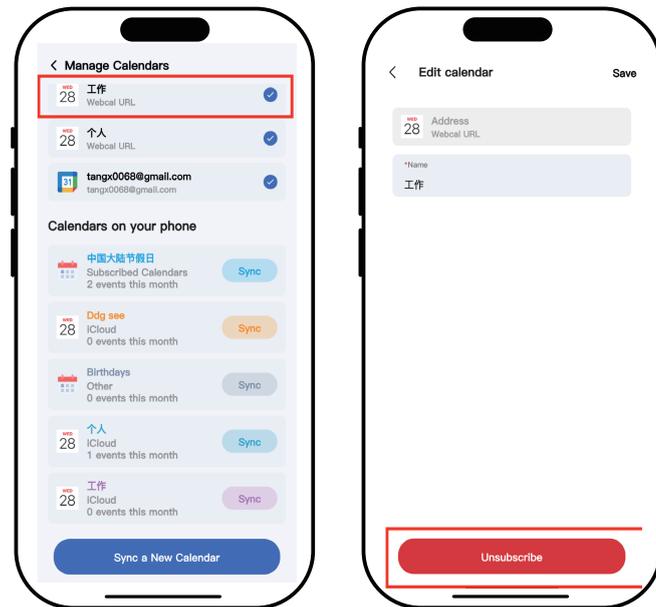

3. Choose your target local calendar, then press Sync to start the syncing process.

## 2. Getting Started

### 2.2.2 Deleting a Synced Calendar

1. Click the synced calendar that you want to delete from the list of synced calendars.
  2. Tap the Unsubscribe button to complete the deletion of the synced calendar.
- The Profiles associated with your synced calendar will still remain after you remove your synced calendar. You will need to delete the Profiles separately.

## 3. Operation Instruction

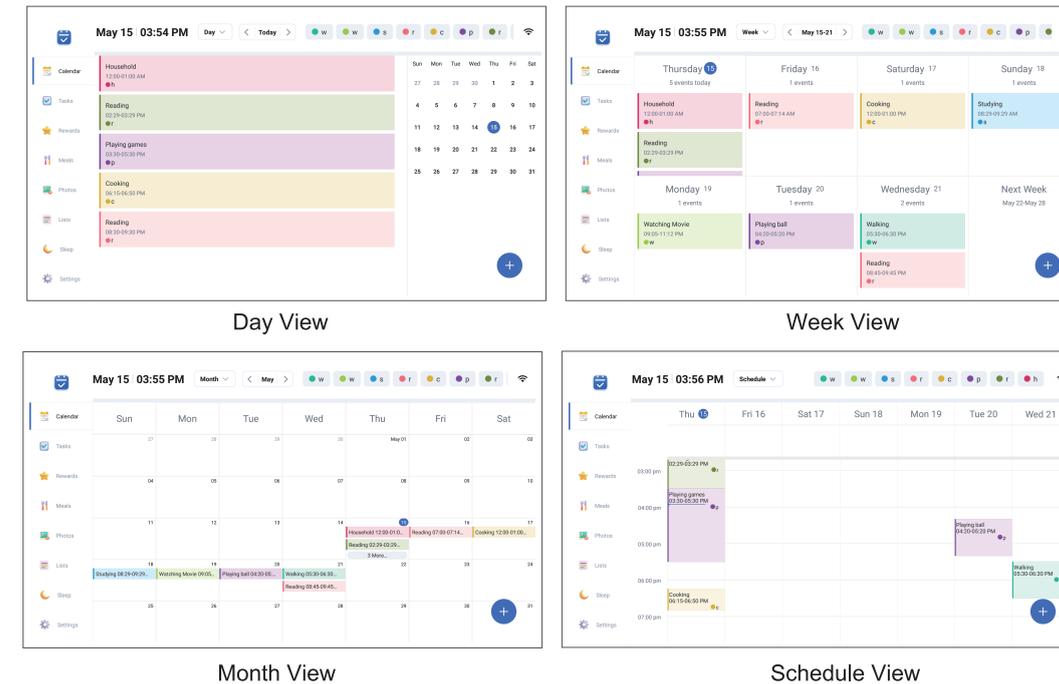

### 3.1 Events

You can view your events in different views on the app or device to suit your needs.

#### 3.1.1 Viewing Events-Device

You can view your events in a Day, a Month, or Schedule view. Schedule view can be configured in Settings  to display between 1 to 7 days.

Tap on an event to view details. You can pinch and zoom to show more or fewer hours in Schedule View.

### 3.Operation Instruction

#### 3.1.2 Creating Events

You can create events on your eCalendar app and from both the mobile app and the device. Events created on the device will sync to the eCalendar app vice-versa. If you have synced a Google Calendar with two-way-sync, changes you make with eCalendar will reflect back too.

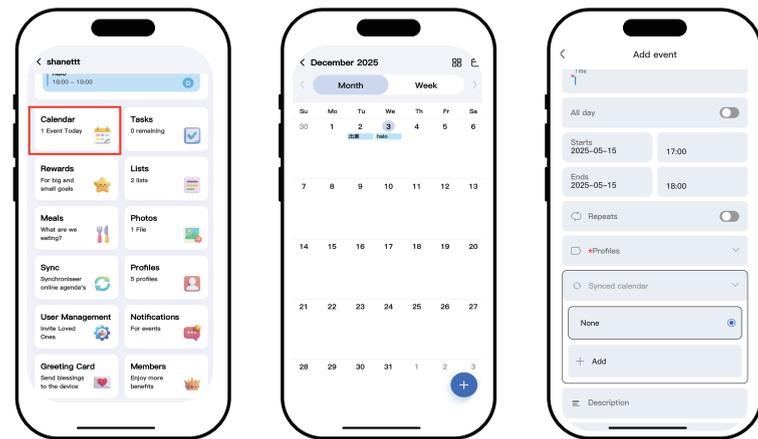

1. Initial Setup Note: Before creating events, please first select the "Calendar view" via the "Calendar" option in the menu when using the app/device for the first time.

2. Press the **+** in the bottom right.

Note For Month View: Pressing and holding on a date (to quickly add an event) is not available on both phone and device (this feature is not supported yet).

On iPhone: Pressing and holding a date then releasing will instead switch the view to the Week view of the week that the date belongs to.

3. Enter your details and press Save.

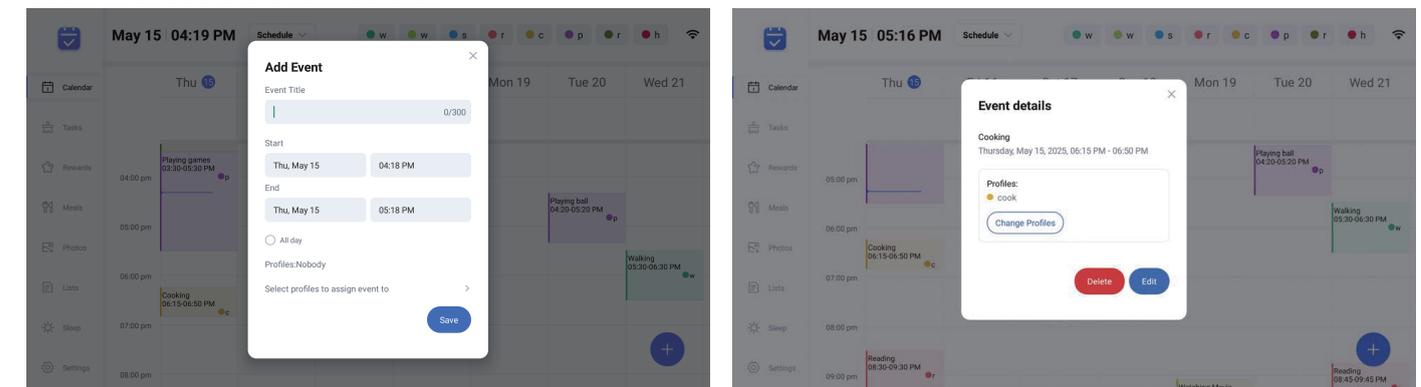

### 3. Operation Instruction

#### Adding, editing and deleting events

Tap on **+** in the bottom right to add an event. Enter the details and assign the event to a profile.

Note (for this app): In this application, the term "Profile" corresponds to the "member" function displayed in the app's interface. No profiles (members) are available on first use. Tap "Create a New Profile to Assign event to" (to create a user profile/member) to assign the event. Tap on an existing event to see the details, edit or delete the event. In the 'Schedule' view, if the event period is too short for the display scale, the texts may not show. Zoom in to see the event details.

#### 3.1.3 Recurring Events

You can create events that occur on a recurring basis. Events can recur in the following ways:

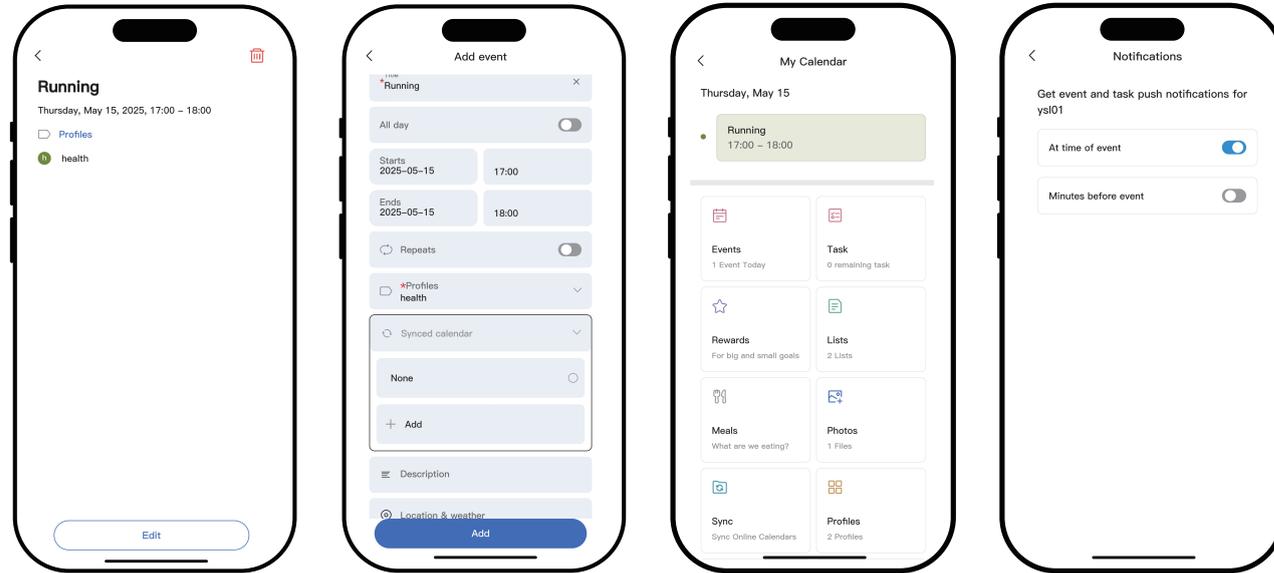

- Daily
- On certain days of the week (e.g., Tues, Thurs)
- Weekly
- Every X weeks
- Annually

Events can also repeat until a specified end date.

### 3.Operation Instruction

#### 3.2 Adding, editing and deleting an event in app

1. Open an Event's details and press Edit. 
  2. Edit your event details and press Save.
  3. If the event is on a 2-way synced Google Calendar, the event changes will appear on your Google Calendar.
- Note for editing Google events: At this time, you can only edit single instances of a recurring event. You cannot convert one-off events into recurring events or edit recurrence rules.
