Guidelines for use

1 Please charge before use, then press and hold the power key for 3 seconds to turn on.

2 Search and download "Tiny Print" in App Store or Google.

3 After turning on the Bluetooth of your mobile phone, open the app, click the device list in the upper right corner, and select "MV-B530".

4 1. Enter <http://print.frogtosea.com> in your browser to download and install the printer driver on your computer.
*Please refer to the operating system instructions on the download page and download the corresponding client accordingly.
Currently supported systems include: Windows 11, Windows 10, Windows 8, macOS with Intel chips, and macOS with ARM chips.*
2. Connect the printer to the computer using a USB Type-C cable.
3. Select "BYP800" to start printing.

Paper replacement course

1 Press the OPEN button in the direction indicated by the arrow to open/close the paper bin (note the direction of the machine).

Open: Press the OPEN button and press down on the paper bin cover to pop open (do not press the paper bin when opening, otherwise it will not pop open).

Close: Put both hands on both ends of the paper bin and press down to close the paper bin.

2 Take out the old paper roll and put the new paper roll in the direction shown. The paper should be put straight and not crooked.

Note: The new thermo sensitive paper needs to be exposed to 2 cm of paper bin length so that the machine can absorb the paper automatically when the paper bin is shaped.

3 Cover the paper bin, the machine can automatically absorb paper after normal use.

4 After the above steps are correct, the machine can print normally.
