WARNING

NEVER OPERATE THE ALL IN ONE SPORT SET WITHOUT FILLING UP SAND BAGS FULLY AND TIE SAND BAGS TO BOTTOM BASE FRAMES SECURELY

THOSE WHO ASSEMBLE AND USE THE SYSTEM MUST READ, UNDERSTAND AND COMPLY WITH ALL THE FOLLOWING.

THE OWNER MUST ENSURE THAT ALL PLAYERS KNOW AND FOLLOW THE RULES FOR THE SAFE OPERATION OF THIS SYSTEM.

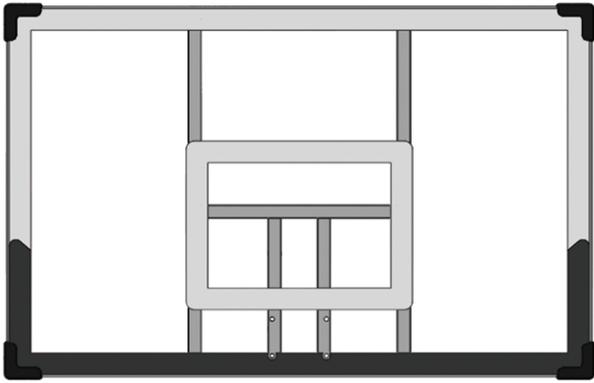

THE SYSTEM MUST BE REMOVED AND ASSEMBLED ONLY BY ADULTS WHO CAN SAFELY HANDLE THE WEIGHT.

- 1. Before assembling the system, the assembler must read all instructions carefully and ensure that all parts are present.**
- 2. Before building the basketball system, you will need to choose a flat piece of ground void of any obstacles that could cause harm to the players.**
- 3. Before using the system, the players must first check the stability of the base. The ground under the base should be free of sharp objects that could cause the base to leak. The base should be filled with the appropriate amount of sand or water, as outlined in the instruction manual.**
- 4. Do not push or drag the base on the ground, as it may cause damage.**
- 5. This system should not be used for a formal match. Dunking and hanging from the rim is not advised.**
- 6. Do not use the system in severe weather.**
- 7. Check the system before each use for loose or damaged parts.**
- 8. Do not hang from the hoop or climb on the pole.**
- 9. Do not climb on the base or structure in general as this could result in serious personal injuries.**
- 10. Adjustments and moving of the basketball set must be carried out by adults.**
- 11. Always check the unit to ensure that the moulded base is full of water or sand, and all fittings and hardware are tight before each use.**
- 12. Always place the base on a flat surface.**
- 13. Do not let water freeze in the base.**
- 14. Two people are required for assembly.**
- 15. Keep the manual for future reference.**

Please safely place the product when not in use or before severe windy weather

Please bend the #2 into a Y shape before installation

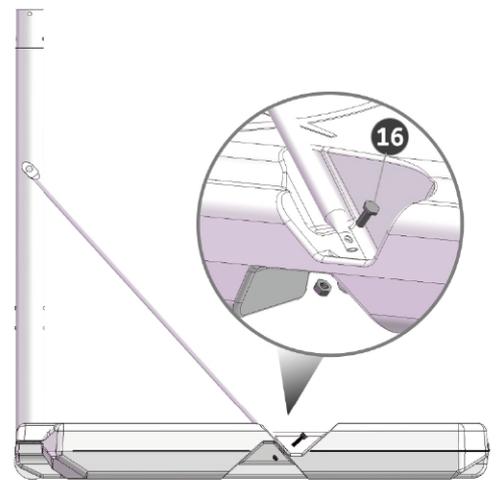

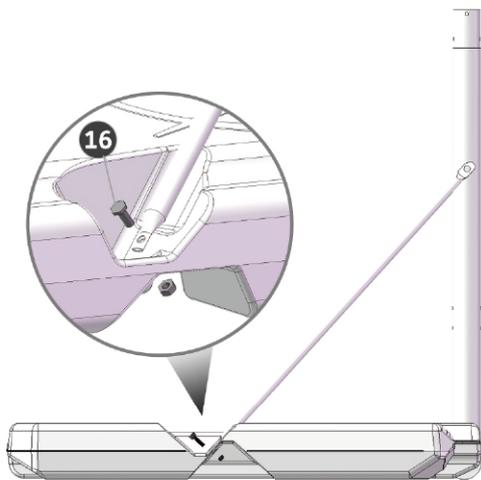

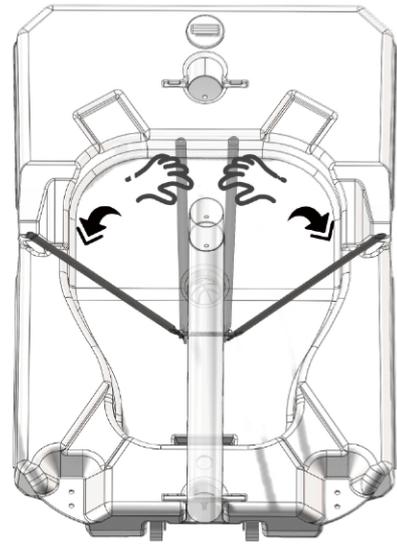

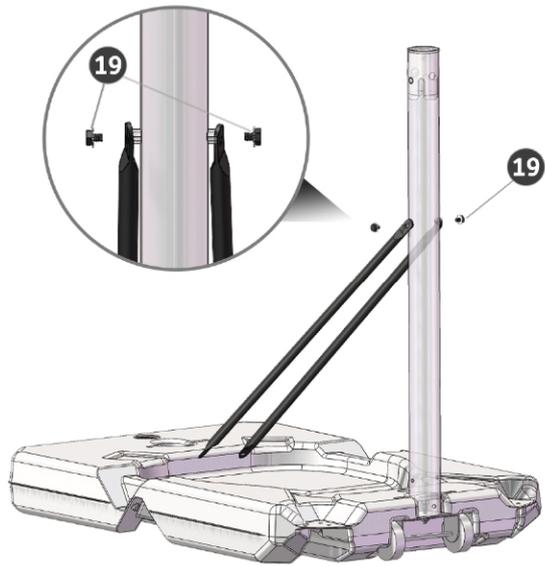

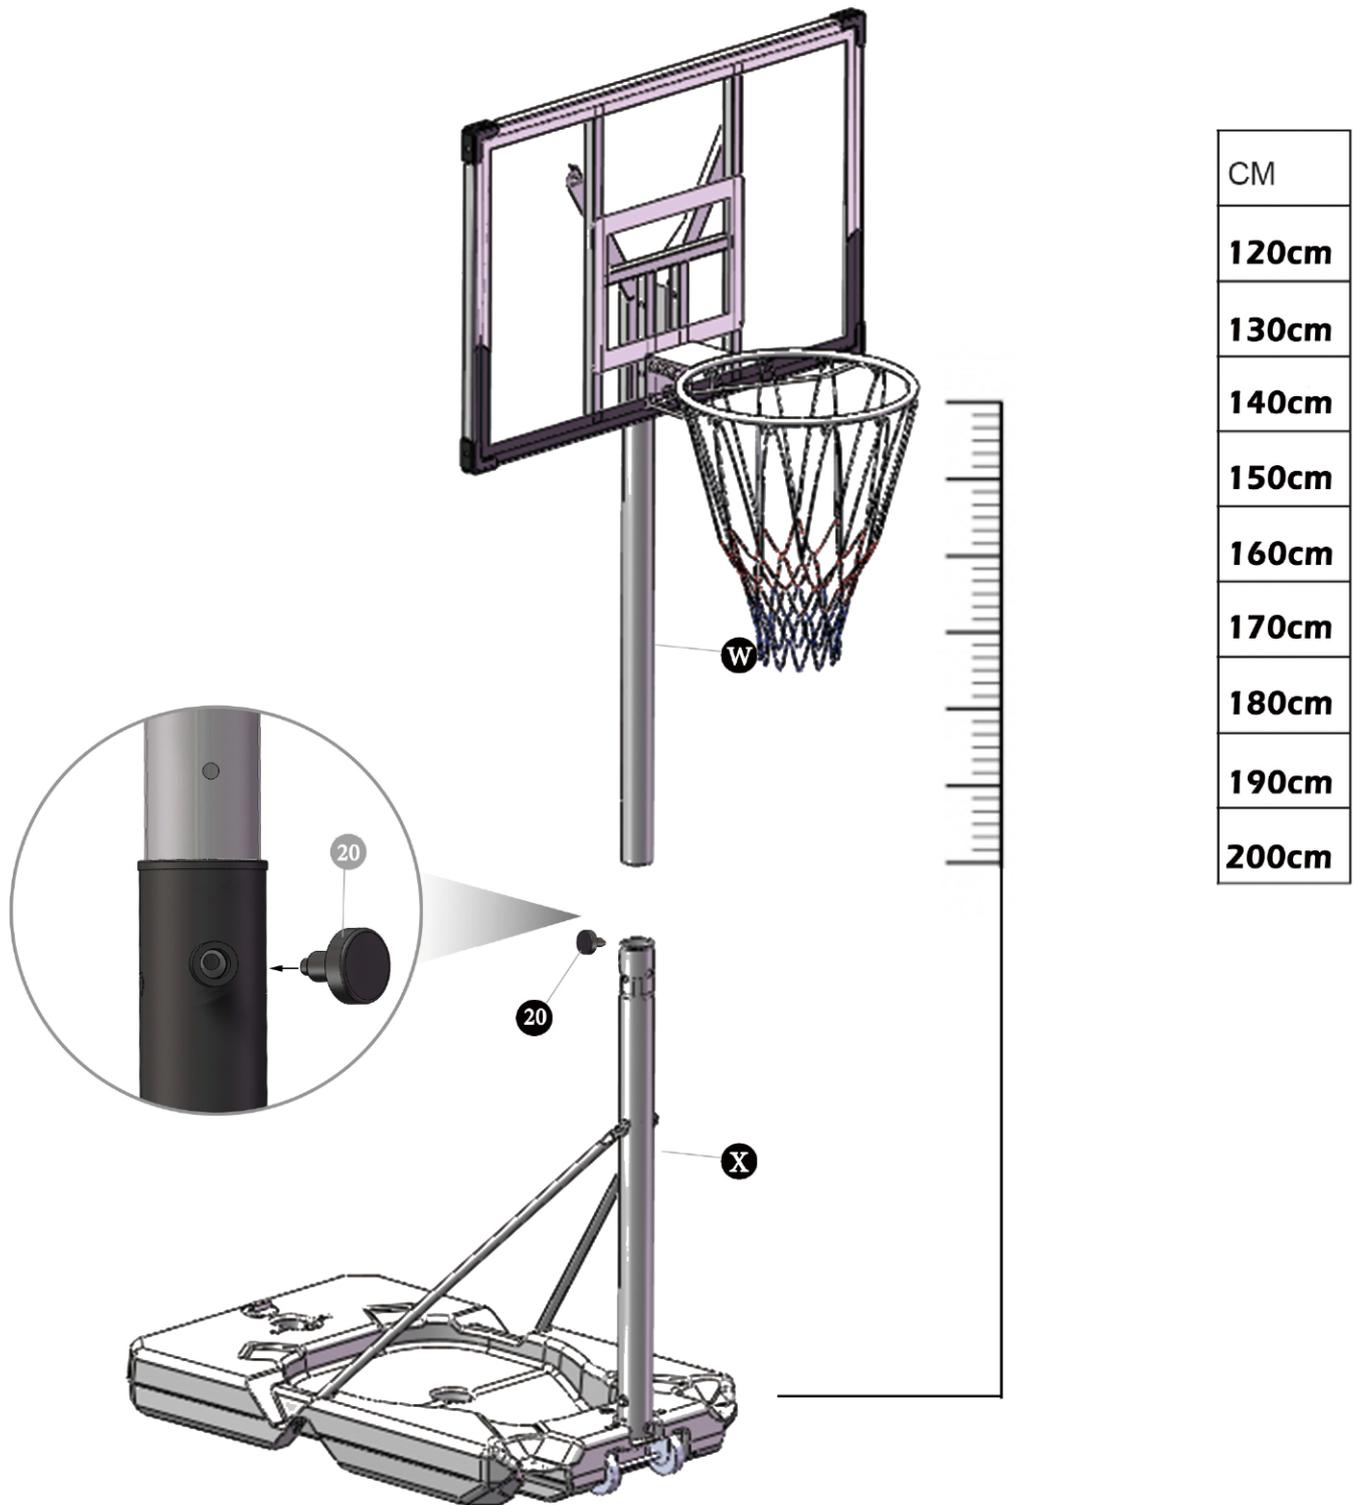

Needed Parts

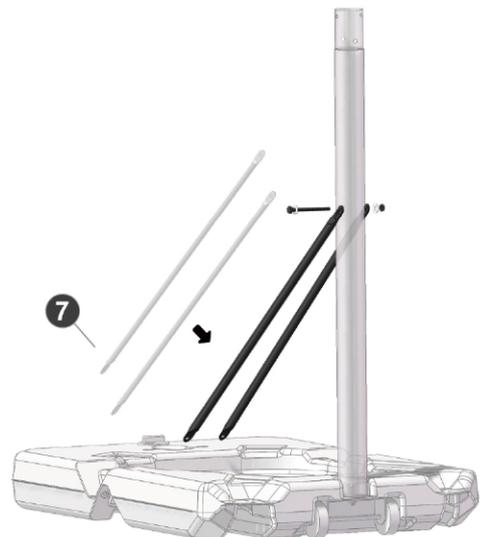

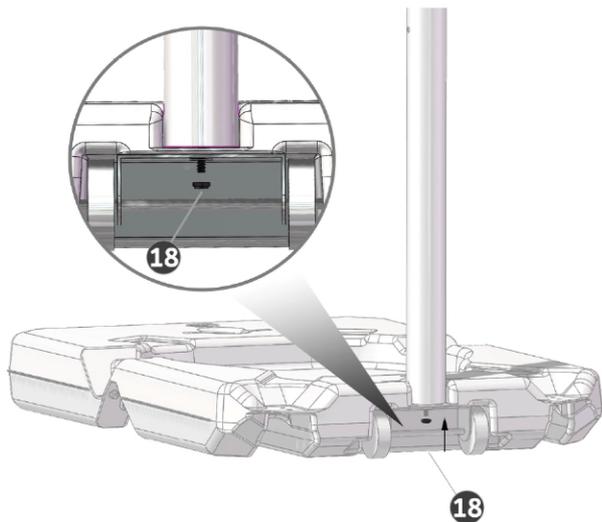

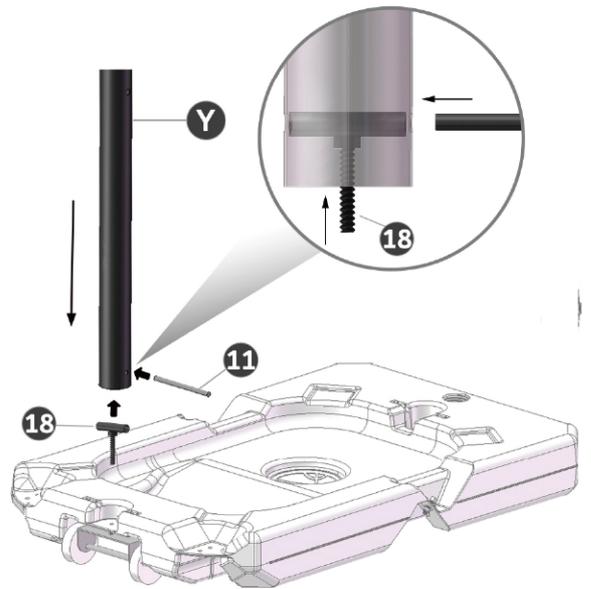

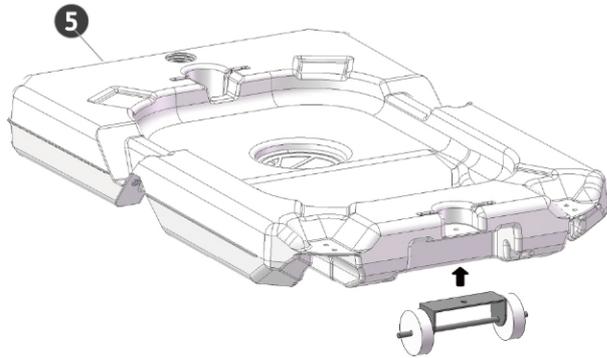

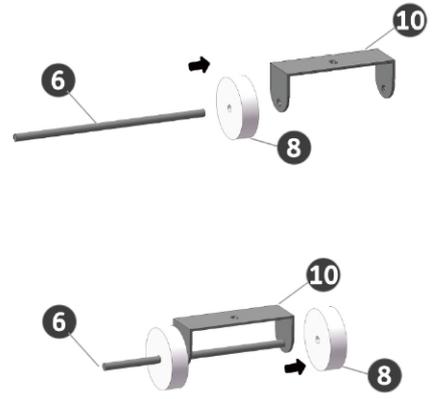

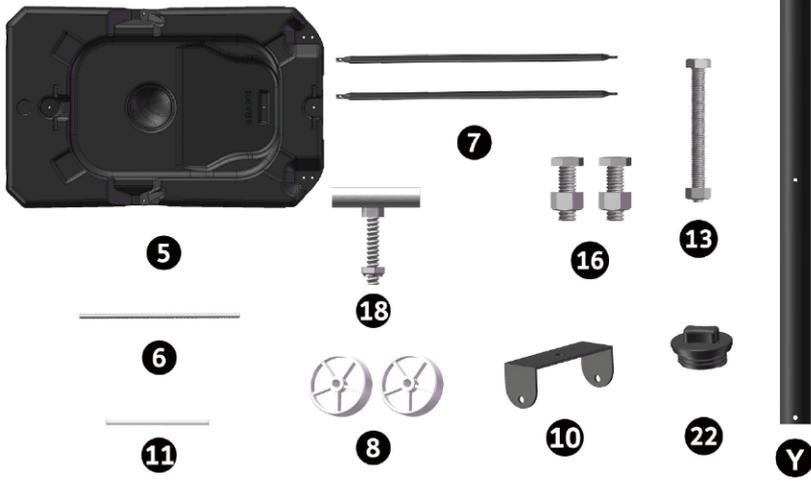

The adjustment of height for this basketball system is from 120cm to 200cm.
Please go to page 10 for adjustment from 225cm to 305cm

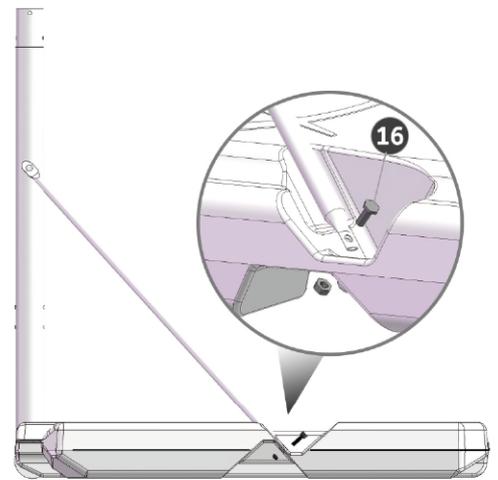

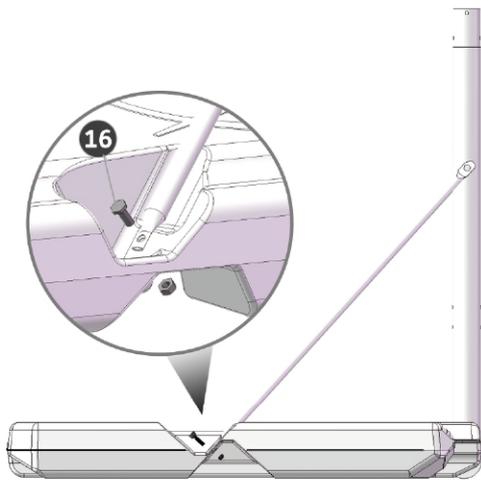

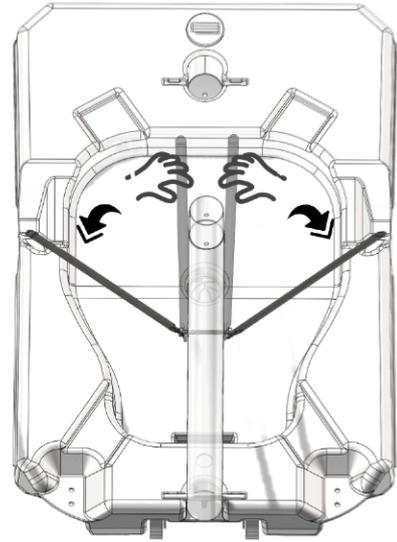

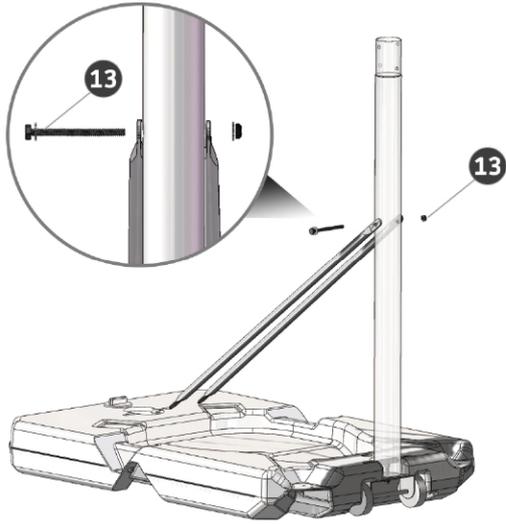

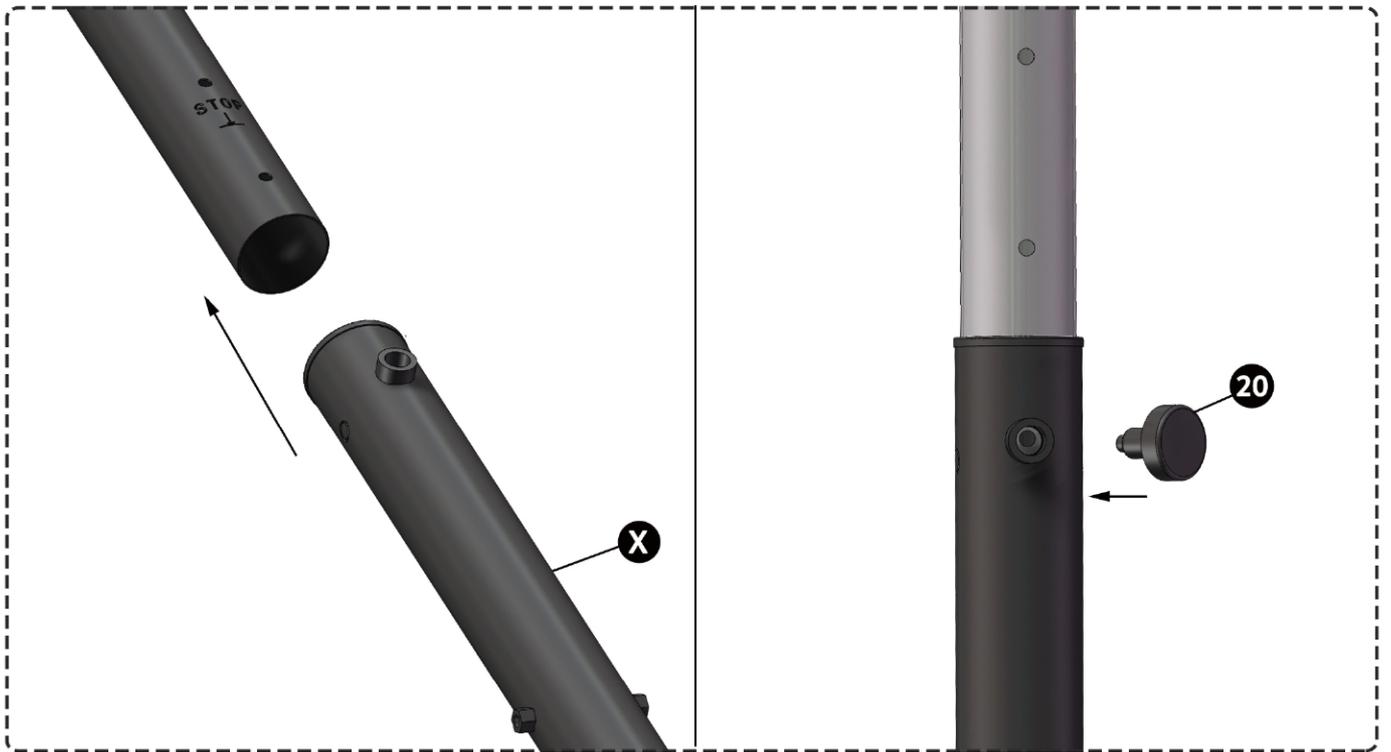

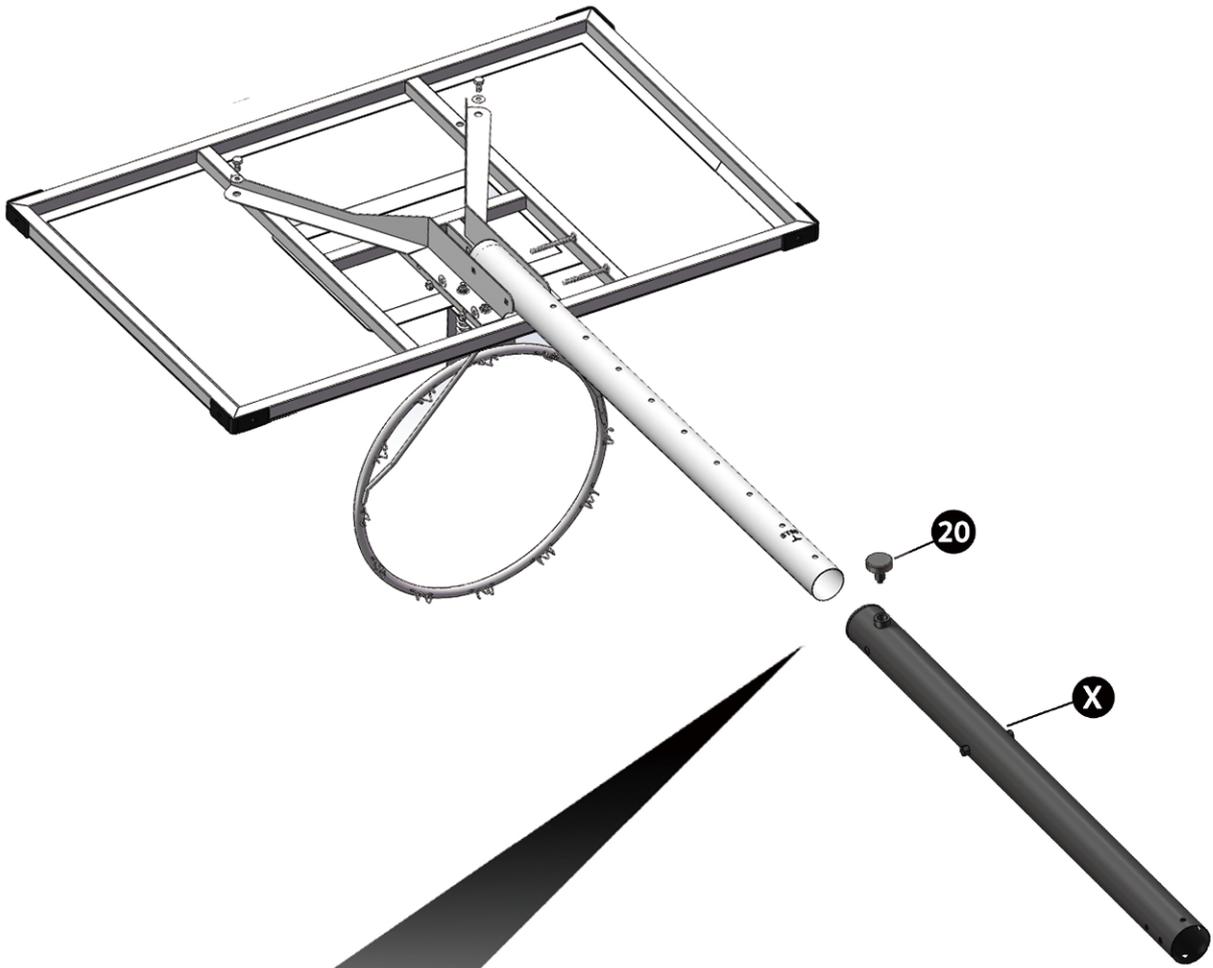

ATTENTION:

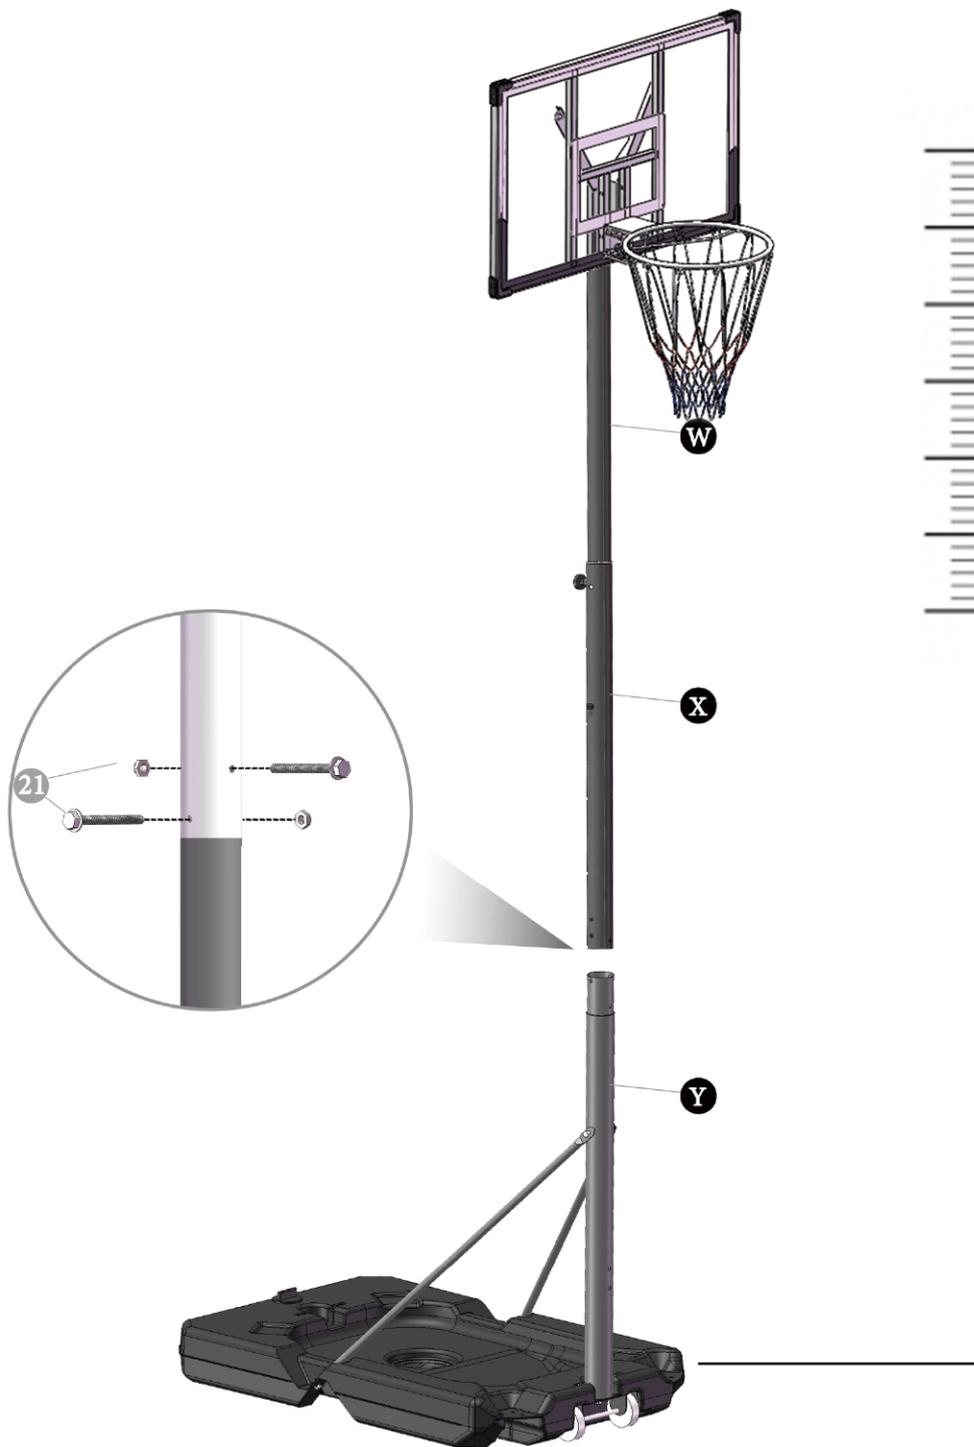

Fill the base with water and place a 20 kgs sand bag on the base before using the basketball hoop.

Needed Parts

CM
225cm
235cm
245cm
255cm
265cm
275cm
285cm
295cm
305cm

ATTENTION:

Fill the base with water and place a 20 kgs sand bag on the base before using the basketball hoop.

Put down the basketball hoop

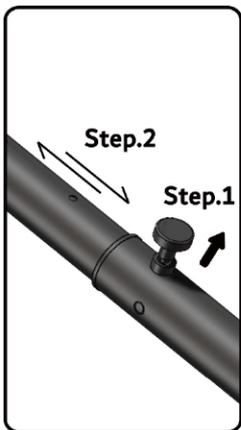

Step.1:

Turn the knob counterclockwise
(do not pull out the knob completely)

Step.2:

Pull the outer shell of the knob back,
and move the pole up and down to
adjust to the desired height

Step.1:

Hold the knob shell

Step.2:

Move the pole up and down to
adjust to the desired height

Step.1:

Loosen the knob shell, and Adjust the
rod slightly so that the metal head
of the knob fits into the hole in the
inner rod

Step.2:

Finally tighten the knob clockwise

Stand the basketball hoop upright on the ground

POLE CARE AND SYSTEM MAINTENANCE

The life of your basketball system depends on many variables. The climate, exposure to corrosives such as salt, pesticides or herbicides, and excessive use or misuse can all contribute to pole failure, which may cause property damage and/or personal injury.

Check your basketball system frequently for loose hardware, excessive wear, and signs of corrosion. For safety reasons, and to prolong the life of your basketball system, you must take the following preventative measures.

1. Check all nuts and bolts. If any are loose, tighten them.
2. Check all parts for excessive wear and tear. If necessary, replace any parts that have been worn or damaged through usage, Contact our Customer Service Department for replacement parts,
3. Inspect the warning sticker on the pole. If it is ripped, faded, or illegible, call our Customer Service Department to request a replacement sticker.
4. Check all pole sections for visible rust or chipped or cracked paint. If either is present, do the following:
 - (a) Use an emery cloth to completely remove any rust or chipped paint.
 - (b) Clean the area with a damp cloth and allow it to dry.
 - (c) Apply two coats of a rust preventative, high gloss enamel paint to the area
Allow the paint to dry between coats.
