

# Instructions Manual

## BAG SEALER

Read through this entire instruction manual BEFORE using the Bag Sealer.

### BATTERY INSTALLATION:

1. Lift the upper cover.
2. Open the battery cover and install 2 x 'AA' batteries according to indicated polarities.
3. Close the battery cover.

### CARE INSTRUCTION:

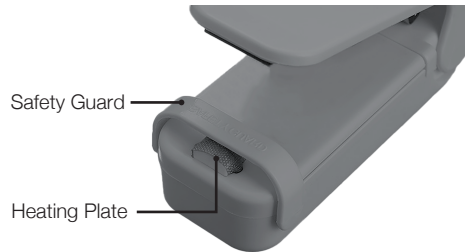

Wipe the device clean with a damp cloth. Ensure that the sealing area is free of any food residue or debris to maintain optimal performance.

### SAFETY GUARD:

A safety guard is installed to cover the heating plate when not in use. Flip the guard down to use and flip up when not in use.

### USAGE:

1. To seal a bag, place the opening of the bag between the heating element and press the device until the bag is sealed. Move the sealer slowly along the edge of the bag for a secure seal.
2. If the bag isn't sealing correctly, ensure you're using the correct type of plastic or foil bag. Some thicker bags may require more time or repeated sealing.
3. Make sure the bag is properly aligned with the heating element. Apply steady pressure and move slowly for a stronger seal.

## WARNINGS:

- Do not submerge in or keep near water or liquid.
- Do not attempt to repair/fix electronics or other parts of the product.
- Do not touch hot plate with bare hands.
