Gecko slips climbing the walls.	1. Clean the tyres with a damp rag. 2. Fold up the air skirts for a better seal prior to use.
Gecko falls off the wall.	1. Make sure to discharge and then charge again for 30 to 50 minutes. 2. Clean tyres and make sure your wall and floor are also clean. 3. Check the air skirts for damage. If they have been pulled loose, tape them back on with flexible tape. 4. Make sure surface is flat.
