## **Dangers of Injury**

- Keep the product and the package away from children and animals, as they can swallow small parts.
- Supervise children using the product. It is not a toy.
- Always maintain a gap of at least 10 cm between the headphones and a pacemaker or an implantable cardioverter defibrillator (ICD) as the product generates magnetic fields.

## **Dangers of Fire and Explosion**

- Do not expose the headphones to any high temperatures over 70°C (like hair dryer, heating, prolonged sunlight etc.) The battery inside of the headphones may overheat and explode as a result.
- Do not crush or pierce the battery! Do not expose the battery to high pressure, as this may cause an internal short-circuit and overheating.
- This product contains batteries that are non-replaceable. The headphones and the battery must not be taken apart, thrown into a fire, immersed in liquids or short circuited.
- Do not cover the product while charging the battery. Charge the product in a well-ventilated environment.
- Charge the product only with a compatible power source from reputable manufacturer e.g. power adapter or power bank. The maximum rating should not exceed 5V- 2A.
- If the headphones are not used for a prolonged period of time, recharge it regularly (roughly every 3 months).

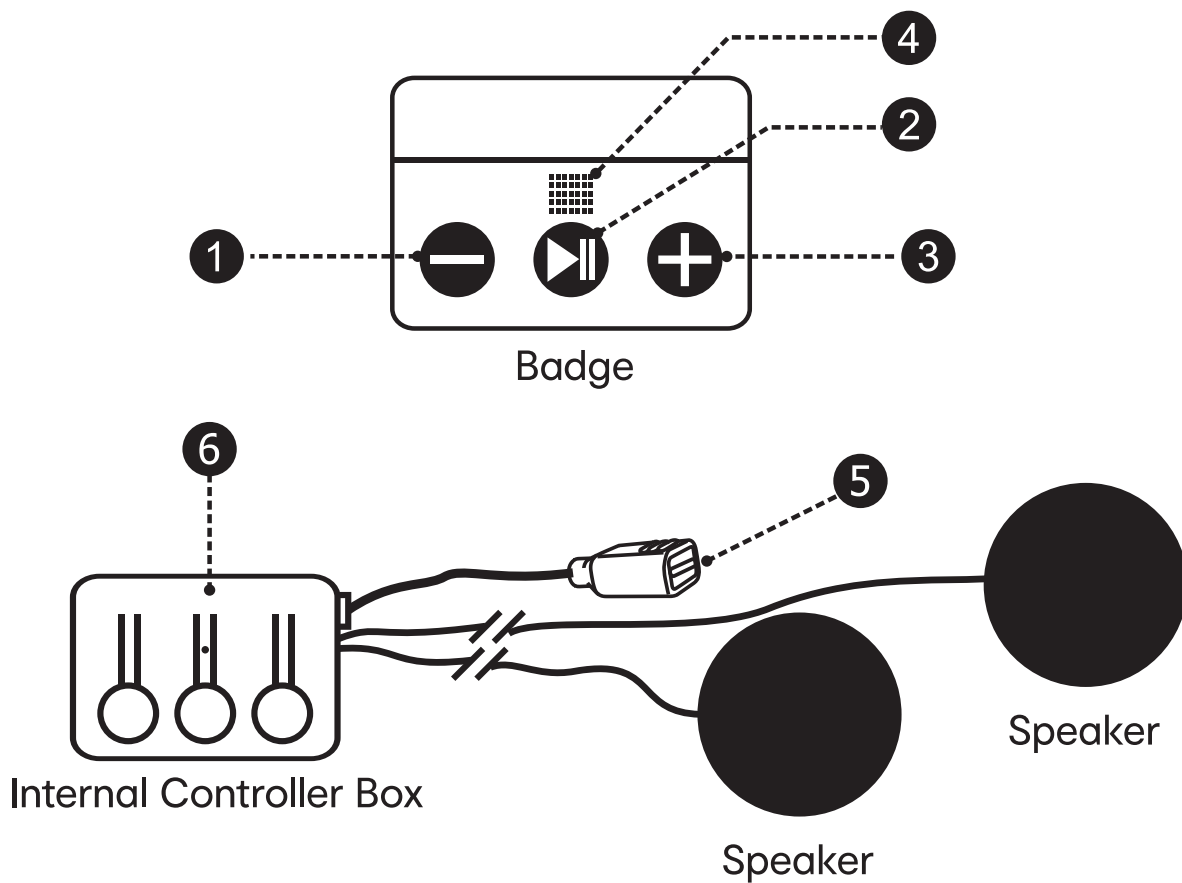

## **Warning and Care Instruction: Remove batteries prior to washing**
