How To Make A Bookmark

1

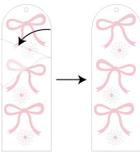

Peel off the white backing paper from the transfer sticker.

2

Apply the transparent transfer sticker to the acrylic bookmark, and gently press down on the patterned areas.

3

Peel off the transparent film covering the transfer sticker, leaving the design on the acrylic bookmark.

4

Thread the coloured beads onto the beading cord in any order you prefer.

5

Once the beaded chain reaches a suitable length, tie a knot to secure it.

6

Tie the ends of the cord together in a knot.

7

Thread the cord loop through the hole at the top of the bookmark.

8

Thread the beaded chain through the centre of the cord loop and pull gently to secure.

9

The bead chain is attached and your bookmark is ready to use!
