LANTERN AND MOSQUITO ZAPPER INSTRUCTION MANUAL

PRODUCT STRUCTURE:

PRODUCT FEATURES:

1. Made from durable PP material with strong compression resistance, suitable for portable and outdoor use.
2. Equipped with a 2000mAh capacity rechargeable lithium battery.

INSTRUCTIONS FOR USE:

1. After unpacking, ensure all accessories are included and check that the product is in good condition before use.
2. Locate the ON/OFF switch on the body and press it to power on the device. Press the ON/OFF switch repeatedly to cycle through the four available operating modes: Mosquito light, Low light, Strong light, and Low light + Mosquito light.

3. Adjust the foldable LED lights to your desired illumination angle, or utilize the hidden handle at the top for convenient carrying and hanging.
4. Turn off the power switch when the device is not in use or while charging. Charge the product using the included Type-C charging cable. The battery is fully charged when the battery indicator stops flashing.

SPECIFICATION

Keycode	43-701-230
input rating	5V/ 1A
battery	2000mAh

ATTENTION
