Guide Image

第二张正面

5

Use your palette knife to scrape the mixture into a neat pile, and then load a small amount to the back of the palette knife. The mixture is ready to be applied to the canvas.

6

Turn the canvas to make it easier to work with. Gently press the mixture onto the canvas and slide the palette knife to create strokes in the shapes of waves.

7

Using the paint brush gently sweep the ends of the wave strokes.

8

Wait 24 hours after completion to dry and then your artwork is ready to be displayed.

How To Make A Vacation Texture Canvas

1

Begin drawing the outline with your pencil (pencil not included). The outline should be light and easy to paint over.

2

Use single-sided tape to mask along the shape of the stairs, as shown.

9

Gently press the mixture onto the canvas and slide the palette knife to create strokes in the shapes of leaves.

10

Wait 24 hours after completion to dry and then your artwork is ready to be displayed.

How To Make A Seashell Texture Canvas

1

Begin drawing the outline with your pencil (pencil not included). The outline should be light and easy to paint over.

2

Use single-sided tape to mask along the shape of the arch background, as shown.

3

Mix the modelling paste with white acrylic paint colour until blended.

4

Take some of the modelling paste mixture onto a flat surface and mix thoroughly with the palette knife.

9

Take some of the modelling paste mixture onto a flat surface and mix thoroughly with the palette knife.

10

Repeat steps 5-6 to make the sun.

11

Mix the modelling paste with white acrylic paint colour until blended.

12

Take some of the modelling paste mixture onto a flat surface and mix thoroughly with the palette knife.

13

Use your palette knife to scrape the mixture into a neat pile, and then load a small amount to the back of the palette knife. The mixture is ready to be applied to the canvas.

14

Gently press the mixture onto the canvas and slide the palette knife to create strokes to shape the umbrella.

Tips

> Acrylic paints and modelling paste should be well mixed and blended.

> The palette knife can be used in different ways for stroke effects: flat and firm for broad strokes or the tip for dabs and small strokes.

> Do not handle completed artwork until completely dry.

> The scraper can be used to make markings and patterns in the background.

How To Make A Seashore Texture Canvas

1

Paint the sand with flesh colour and white, and allow to dry.

2

Paint the sea with blue and allow to dry.

3

Mix the modelling paste with white acrylic paint colour until blended.

4

Take some of the modelling paste mixture onto a flat surface and mix thoroughly with the palette knife.

1

第二张反面

3

Mix the modelling paste with your desired acrylic paint colour until blended. Add more paint to brighten colours, or more modelling paste to lighten colours.

4

Take some of the modelling paste mixture onto a flat surface and mix thoroughly with the palette knife.

5

Take some of the modelling paste mixture and apply to the stairs area.

6

Gently pat the mixture with the palette knife.

7

Peel off the single-sided tape.

8

Mix the modelling paste with your desired acrylic paint colour until blended. Add more paint to brighten colours, or more modelling paste to lighten colours.

5

Take some of the modelling paste mixture onto the background area. Gently pat the mixture with the palette knife.

6

Peel off the single-sided tape.

7

Repeat steps 3-4 and use your palette knife to scrape the mixture into a neat pile, and then load a small amount to the back of the knife. The mixture is ready to be applied to the canvas.

8

Gently press the mixture onto the canvas and slide the palette knife to create the fan-shaped surface of the seashell. The direction is from middle to side.

9

For the bottom of the seashell, repeat steps 3-5 to fill the round area. Wait 24 hours after completion to dry.

10

Paint the background with light blue and allow to dry. Then your artwork is ready to be displayed.

2

第三张反面

15

Wait 24 hours after completion to dry.

16

Use single-sided tape to mask off the shape of the umbrella pole, as shown.

17

Paint the umbrella pole and tip with blue. Peel off the tape and allow to dry.

18

Paint the stripes on the umbrella with light blue and allow to dry. Then your artwork is ready to be displayed.

How To Make A Palm Texture Canvas

1

Begin drawing the outline with your pencil (pencil not included). The outline should be light and easy to paint over.

2

Paint alternate squares in the grid with pink, and allow to dry.

3

Paint the arch background with white, and allow to dry.

4

Mix the modelling paste with your desired acrylic paint colour until blended. Add more paint to brighten colours, or more modelling paste to lighten colours.

5

Take some of the modelling paste mixture onto a flat surface and mix thoroughly with the palette knife.

6

Place some of the mixture onto the trunks of palms.

7

Use your palette knife to gently press the mixture onto the canvas and slide a little bit to create the texture of the trunks.

8

Use another palette knife to scrape the mixture into a neat pile, then load a small amount onto the back of the knife. The mixture is now ready to apply to the canvas. If you need more, repeat Steps 4-5.
