How to charge the mirror

Made in China

- ① Connect the Type-C USB port to a 5V DC, 1A SELV power supply using the provided USB cable.
- ② The indicator light will turn red while charging.
- ③ After approximately 3 hours, the indicator light will turn green, indicating the mirror is fully charged.

Safety Instructions

- ① Keep away from water.
- ① Close supervision is required when this appliance is used by children or individuals with physical or mental disabilities.
- ① If the product becomes damaged, dispose of it as electrical waste in accordance with local, state, and federal regulations. Repairs should not be attempted.
- ① Use this appliance only for its intended purpose as described in this instruction manual.
- ① This appliance contains non-replaceable batteries. When the battery reaches the end of its life, the appliance must be disposed of properly.
- ① The light in this mirror is not replaceable. When the light source reaches the end of its life, the entire luminaire must be replaced.

Storage Instructions

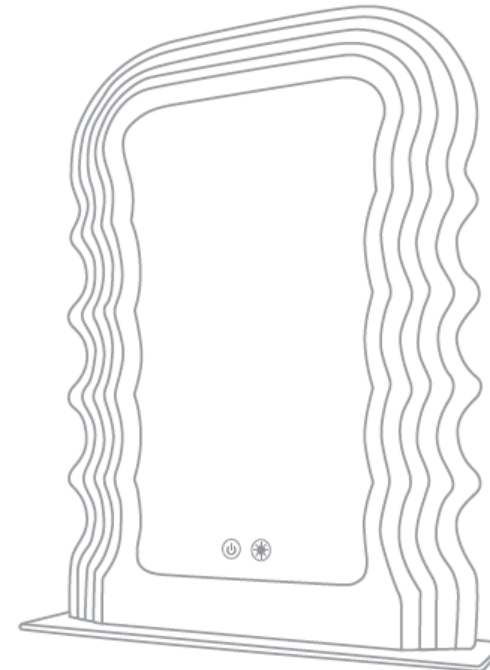

- ① Do not store in direct sunlight, as mirrors reflect light.
- ② Store the mirror in a cool, dry place.
- ③ For safety, ensure the mirror is kept out of reach of children.
