

HANG THICK RIB CAT LEDGE

Contents:

A: suction cup x 4pcs	B: L-shaped pole with spring-loaded pin x 1pc	C: L-shaped pole without spring-loaded pin x 1pc	D: straight pole without spring-loaded pin x 1pc
E: straight pole with spring-loaded pin x 1pc	F: white plastic base x 2pcs	G: plush platform nest x 1pc	H: Allen key x 1pc
I: screw nut x 2pcs	J: long screw x 2pcs	K: short screw x 2pcs	

Assembly Instructions

Step 1.

Connect L-shaped pole (B) and pole (C): Press the spring-loaded pin on pole (B) and insert it into the alignment hole in pole (C), until a “click” is heard. Refer to the images below:

Step 2.

Connect straight pole (D) and pole (E): Follow the same steps as step 1, and refer to the images below:

Step 3.

Connect the metal pole assemblies from step 1 and step 2 using short screws (K x 2pcs), and tighten the screws with Allen key (H). Refer to the images below:

Step 4.

Insert the metal frame assembly from step 3 into the slot of the white plastic bases (F x 2pcs). Then fasten the plastic bases to the metal frame using long screws (J x 2pcs) and screw nuts (I x 2pcs). Tighten the screws with Allen key (H). Refer to the images below:

Step 5.

Soak the suction cups (A x 4pcs) in hot water (60-80°C) for 10 minutes to soften them and restore their original shape. Then dry the surfaces of the suction cups. Insert the screws of the suction cups into the corresponding holes in the white plastic bases (F x 2pcs) and tighten by turning the suction cups. Refer to the images below:

Step 6.

Align the plush platform nest (G) with the metal frame, then place it onto the frame and press gently to secure it in position, and zip it up. Refer to the images below:

Step 7.

Find a suitable position for the hanging bed, ensure that mounting glass surface is clean, dry, and secure. Do not position the hanging bed too high; make sure it is easily accessible for your cat. Push the suction cups into place and ensure the hanging bed is horizontal.

Note: After attaching the hanging bed to the clean surface, please press the suction cups firmly against the cleaned surface, and **press the center of the suction cups hard** to expel all air between the suction cups and the surface. Make sure there is no air in the suction cups.

WARNING:

This window hanging bed is for pet use only.

Make sure the mounting glass surface is clean, dry, and strong enough.

Do not position the hanging bed too high, and make sure it is easily accessible for your cat.

Do not install the hanging bed near a fire or heat source.

Do not install over anything that is breakable, valuable or could hurt your cat.

Ensure the product is tightened and secure prior to letting your pet use it.

For your pet's safety, inspect regularly and re-secure suction cups periodically, as the bond can weaken over time. Remove if damaged.

Maximum loading: 6kgs.
