DIY Polymer Clay Magnet Kit

Instruction Manual

Kit Includes

> 8 x 10g coloured polymer clays

> 3 x magnets

> 2 x clay tools

> 1 x clay roller

> 1 x instruction sheet

Guide Image

第二张正面

4

Place the small clay ball on the round flattened clay, then fold the flattened circle over. Pressing along the edges to join them together.

5

Use the clay tool to add texture by lightly indenting along the rounded edge, as shown.

6

Take a small amount of black and light green clay. Roll the black clay into 2 balls and the light green clay into 6 balls with your hands, then flatten them with your fingers.

7

Take some white clay and a small amount of black clay. Roll each colour into string-like strips. The white strip should be very thick at one end and very thin at the other end. The black strip should be very thin and cut into a short piece to form the mouth.

6

Take a small amount of yellow clay and roll it into a ball with your hands. Use your fingers to mould it into a bottle cap shape, then use the clay tool to create texture by lightly indenting the sides.

7

Take a small amount of black clay, roll it into 2 balls with your hands, then flatten them with your fingers. Take a small amount of black clay, roll it into a thin, string-like strip.

8

Place 2 eyes and 1 mouth on the front of the pink rectangle shape, as shown. Gently press to secure in place.

9

Place the yellow heart in the centre of the light green rectangular shape. Gently press to secure in place. Then wrap the light green piece around the neck of the bottle. Use your fingers to smooth the ends together.

10

Place the cap on the top of the bottle and the pink label on the front of the bottle, as shown. Gently press them to secure in place. The bottle of ketchup is temporarily finished.

7

How To Make A Polymer Clay Avocado

1

Take some light green clay and roll it into a ball with your hands.

2

Use the roller to flatten the clay to about 10mm thickness. Ensure the slab is large enough to cut a avocado shape. Cut out the avocado shape using the tool.

3

Take some green clay, and a small amount of black clay. Roll each colour into string-like strips. The black strip should be very thin and cut into a short piece to form the mouth. The green strip should be thin and long.

Tips

> Wash your hands before beginning, and prepare a clean, smooth work surface.

> Baking time may vary depending on your oven and the thickness of the clay. Take care to avoid burning it.

> Use a protective mitt or similar to remove the tray from the oven. Do not touch the hot clay. Allow the clay to cool and harden on the tray.

How To Make A Polymer Clay Dumpling

1

Take some yellow clay and roll it into a ball with your hands. The ball should be smaller than the first one.

2

Use the roller to flatten the clay to about 3mm thickness.

3

Take some yellow clay and roll it into a ball with your hands. The ball should be smaller than the first one.

1

8

Bend the white strip and place the 6 green pieces on it to form the sauce. Gently press to secure them in place.

9

Place 2 eyes, 1 mouth and the white sauce on the front of the dumpling, as shown. Gently press to secure in place. The dumpling is temporarily finished.

How To Bake Polymer Clay Figurines

1

Preheat the oven to 140°C. Place the figurines flat on an oven tray lined with baking paper and bake for 15 minutes. Baking time may vary depending on the clay thickness and your oven. Carefully remove the tray using an oven mitt and allow the figurines to cool completely on the tray before touching.

2

When the figurines have cooled and hardened, peel the backing paper off the magnets and firmly attach a magnet to the back centre of each figurine. The foodie magnets are now ready to decorate your fridge or magnetic board.

4

Place the green strip around the edge of the avocado to form the peel, and use your finger to smooth the ends together. Then, gently smooth the area where the pulp and peel meet.

5

Take some light brown clay and roll it into 3 balls with your hands - 1 large ball and 2 small balls. Then use your fingers to mould the larger ball into an avocado pit and the other 2 into feet.

6

Take a small amount of black clay, roll it into 2 balls with your hands, then flatten them with your fingers.

7

Place 2 eyes, 1 mouth, 1 pit and 2 feet on the front of the avocado, as shown. Gently press to secure in place. The avocado is temporarily finished.

5

How To Make Polymer Clay Ketchup

1

Take some red clay and roll it into a ball with your hands.

2

Use your fingers to mould the ball for the bottle.

3

Take some pink clay and roll it into a ball with your hands. Use the roller to flatten the clay to about 3mm thickness. Cut out a rectangular shape using the tool.

4

Take some light green clay and roll it into a ball with your hands. Use the roller to flatten the clay to about 3mm thickness. Cut out a narrow, rectangular shape using the tool.

5

Take some yellow clay and roll it into a ball with your hands. Use the roller to flatten the clay to about 3mm thickness. Cut out a heart shape using the tool.
