# DIY Shrink Art Keyring Kit Instruction Manual

## Kit Includes

- › 9 x shrink art charms
- › 3 x keyrings
- › 8 x markers
- › 1 x instruction sheet

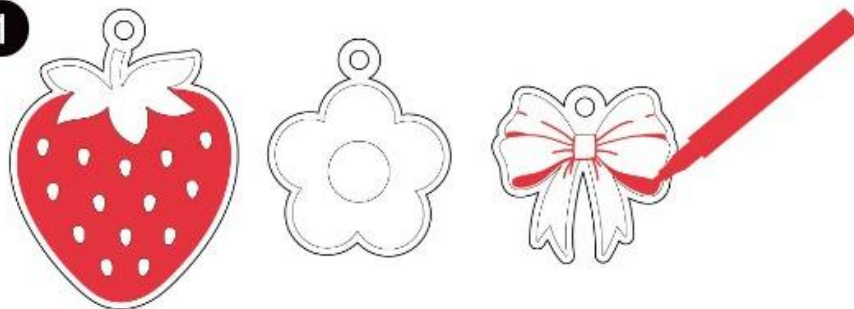

Guide Image

## Tips

- › Do not use a microwave or toaster oven.
- › Keep all materials away from open flames.
- › Use an oven mitt when removing the hot tray from the oven.
- › During shrinking, the plastic sheet will curl and twist before flattening again. This is completely normal.

## How To Make Shrink Art Charms

1

Begin colouring the shrink art charms with your desired marker colour, leaving the background area blank.

2

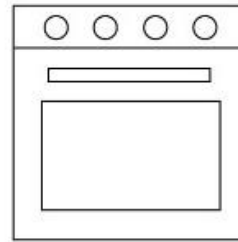

Continue colouring your shrink art charms using the remaining colours.

3

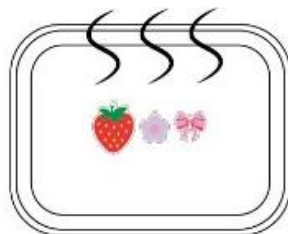

Preheat the oven to 170°Celsius. Place the charms on a baking tray with the coloured side facing up.

4

Bake for approximately 2 minutes. The charms may curl whilst they shrink. This is a normal part of the process and they will flatten out again.

5

Carefully remove the tray from the oven using oven mitts. Allow the shrink art charms to cool for 5 minutes before touching them.

## How To Make Charmed Keyrings

1

Attach 3 shrink art charms to 1 keychain using the metal rings. To attach a charm, open a metal ring and thread it through the charm hole and the keychain. Then close the ring securely. Follow the guide image for suggested charm combinations, or create your own designs.

2

Repeat Step 1 to assemble the other 2 keyrings. Your shrink art keyrings are now finished and ready to use.
