Warnings:

- The inflatable skeleton is suitable for **OUTDOOR USE**.
- This product is **NOT** designed for permanent or long term use.
- The LED driver **MUST** be installed **INDOOR** away from weather.
- The LED driver is suitable for operation of LED Modules only.
- Only operate this inflatable skeleton with the LED driver, **Model No. JT-DC12V12W**
- Do not connect this inflatable skeleton electrically to another inflatable skeleton.
- Do not operate the product while it is in the packaging.
- **DO NOT** attempt to replace the non-replaceable bulbs in this inflatable skeleton.
- Never allow any part of the set to come into contact with a source of heat or flame.
- Care must be taken to avoid damage the cable or fittings.
- If any part of light set or cable is damaged, the light set **MUST** be discarded.
- This product is for use as a decoration only. Not to be used by children as a toy. Keep out of reach of children.
- Do not position this inflatable skeleton where it will be exposed to extreme wet weather or submerged in water.
- Always switch off this light set or unplug an adaptor if unattended.
- **DO NOT** overload power sockets or extension leads.
- **DO NOT** pierce the cable when securing in place, bend or stand on the inflatable skeleton, as this will damage the bulbs or wiring.
- Please refer to the packing or product rating label for product class, specifications and rating.
- The servicing of the controlgear in this luminaire should only be undertaken by the manufacturer or their service agent or a similarly skilled person.
- This lighting chain must not be used without all gaskets being in place.

Adaptor Manual:

1. Please use the equipment according to the rated voltage and current.

Model No.	Input Rated			Output Rated	
	Voltage	Frequency	Current	Voltage	Power
JT-DC12V12W	220-240VAC	50-60Hz	0.50A	12V DC	12W

2. Do not open the cover of the equipment.
3. For use with LED lighting equipment.
4. The input and output voltage should be checked before use to ensure correct use.
5. This is the Class II product, only for indoor use.
6. The product is not a toy, keep it where children cannot reach.
7. The lamp controlgear does not rely upon the luminaire enclosure for protection against accidental contact with live parts.
8. If applicable: an indication that the controlgear is suitable for operation with LED modules.
9. Do-not-cover classification

The LED driver that can be used where normally flammable materials, including building insulation are or may be present, but cannot be abutted against any material and cannot be covered in normal.

Minimum clearance distance from the top and sides of the control gear to normally flammable building element is 75mm; as shown in below picture, A=B=C=Min.75mm.
