Step 13: Cut a 8cm length of iron wire.

Steps 14-17: Follow the diagrams below to create the yellow inner parts of the flower.

Steps 18-22: Follow the diagrams below to assemble your flower,

18

Take 1 piece of green plastic flower rod to be the stem.

25cm

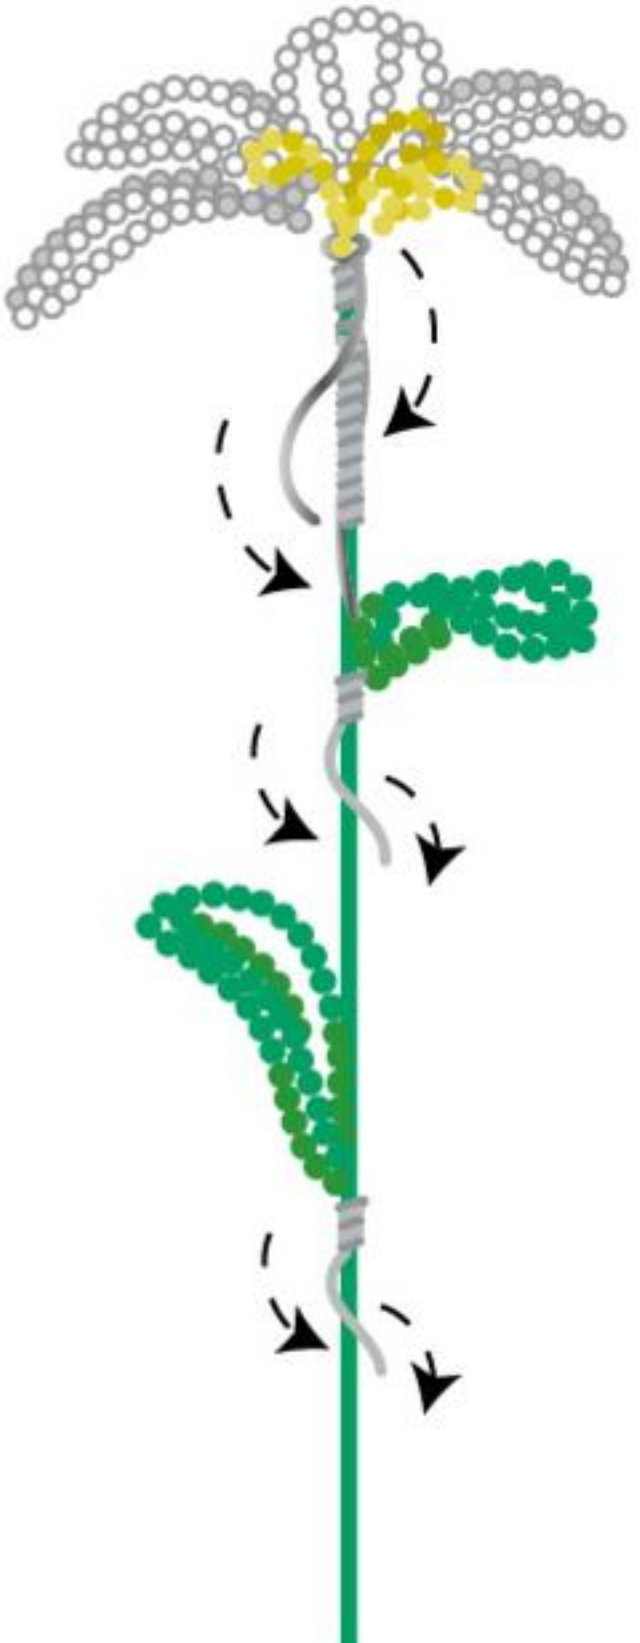

19

Hold petal up against the top of the rod and wrap the iron wire around the stem.

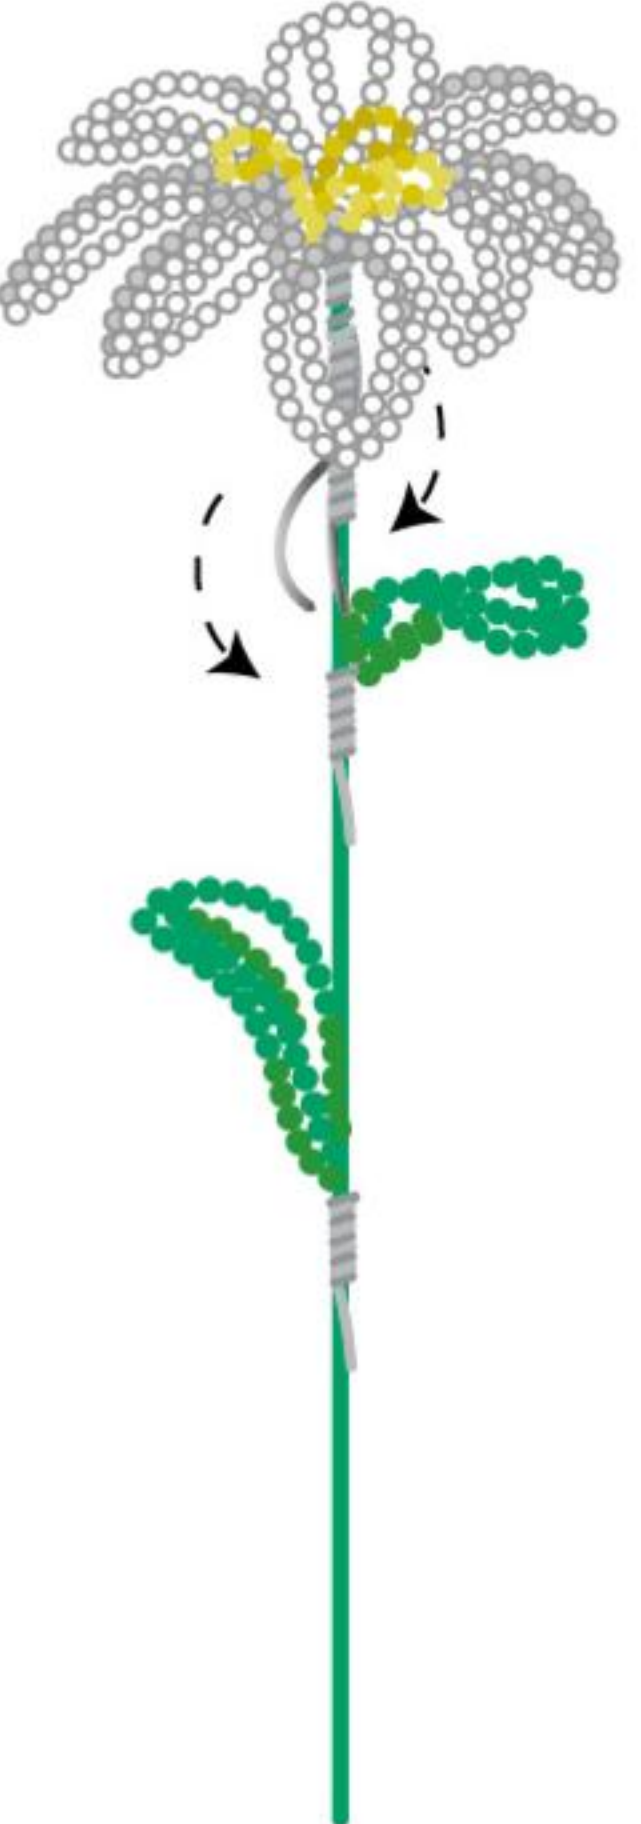

20

Continue adding the petals, inner flower pieces and leaves, wrapping their wire ends around the stem.

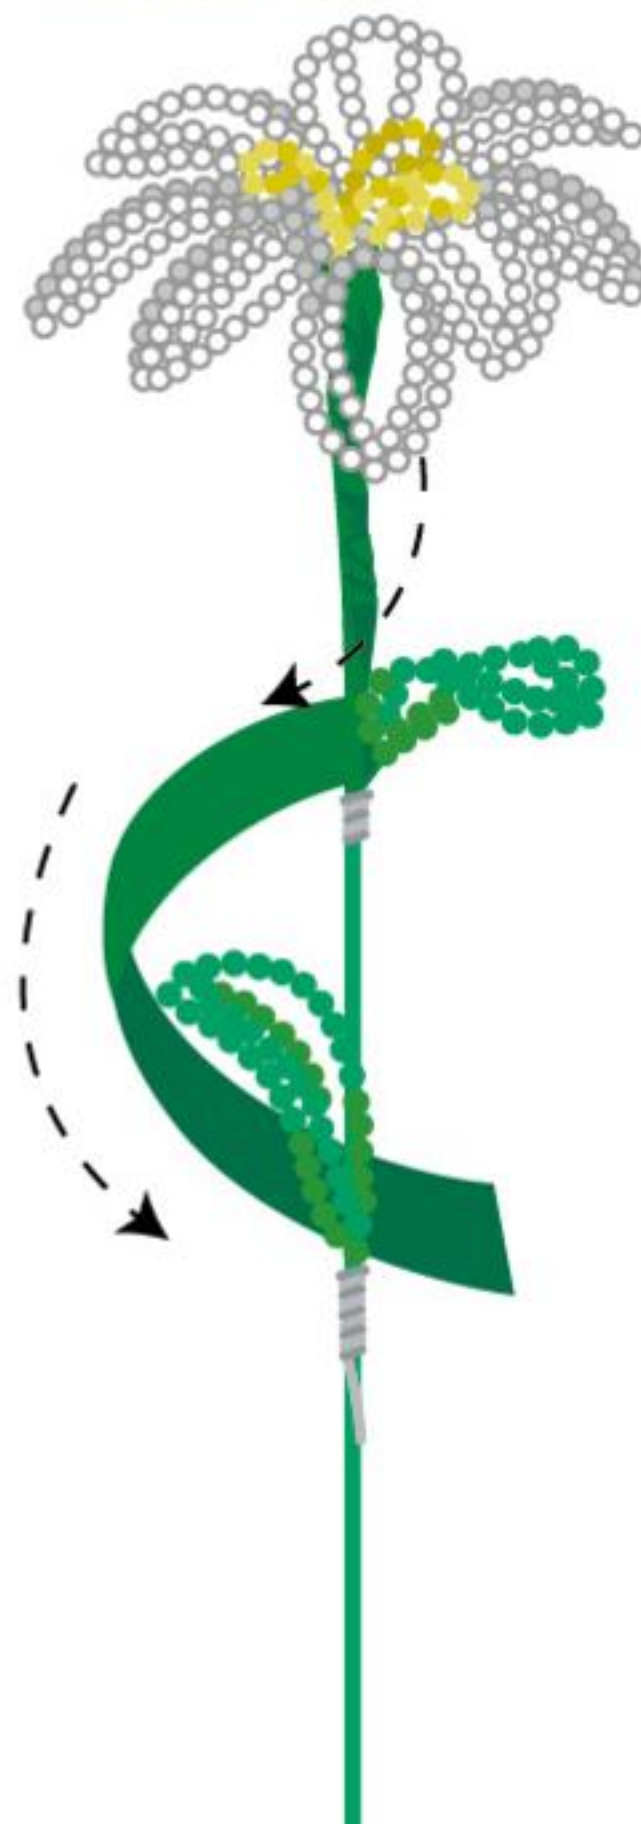

21

Add the last petals and tidy the wire up tightly.

22

From the top of the stem, tightly wrap paper tape around the stem, overlapping as you go. This will stick the tape together.

23

Repeat to all steps to create another 2 flowers.
