Kit Includes

- › 1 x ceramic plate
- › 7 x acrylic paints
- › 2 x paint brushes
- › 1 x gloss varnish
- › 1 x instruction sheet

Guide Image

Tips

- › Clean the ceramic plate with a damp cloth before painting.
- › Allow each paint colour dry before painting a new colour.
- › Use the guide image for paint colour direction.
- › This plate is for decoration only not for food use.

How To Paint A PYO Plate

1

Start colouring the plate with the paint colours you want. Please refer to the 'Guide Image' for colour guidance.

2

Continue painting with the remaining colours, allowing each coat to dry before applying the next colour.

3

Once the paint is dry, apply 2-3 coats of the gloss varnish with a clean paint brush. Ensure each coat is completely dry before applying the next. Allow varnish to cure for 24 hours before handling.

4

Once the varnish is completely dry, bake the ceramic plate at 80°C for one hour. Then the plate is finished.
