Microwave Oven

INSTRUCTION MANUAL

MODEL: AW925EXG

Read these instructions carefully before using your microwave oven, and keep it carefully.

SAVE THESE INSTRUCTIONS CAREFULLY
PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY

(a) Do not attempt to operate this oven with the door open since this can result in harmful exposure to microwave energy. It is important not to break or tamper with the safety interlocks.

(b) Do not place any object between the oven front face and the door or allow soil or cleaner residue to accumulate on sealing surfaces.

(c) WARNING: If the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent person.

ADDENDUM

If the apparatus is not maintained in a good state of cleanliness, its surface could be degraded and affect the lifespan of the apparatus and lead to a dangerous situation.

IMPORTANT SAFETY INSTRUCTIONS

WARNING

To reduce the risk of fire, electric shock, injury to persons or exposure to excessive microwave oven energy when using your appliance, follow basic precautions, including the following:

1. Warning: Liquids and other foods must not be heated in sealed containers since they are liable to explode.

2. Warning: It is hazardous for anyone other than a competent person to carry out any service or repair operation that involves the removal of a cover which gives protection against exposure to microwave energy.

4. Only use utensils suitable for use in microwave ovens.

5. The oven should be cleaned regularly and any food deposits should be removed.

6. Read and follow the specific:"PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY".

7. When heating food in plastic or paper containers, keep an eye on the oven due to the possibility of ignition.

8. If smoke is emitted, switch off or unplug the appliance and keep the door closed in order to contain any flames.

9. Do not overcook food.

10. Do not use the oven cavity for storage purposes. Do not store items, such as bread, cookies, etc. inside the oven.

11. Remove wire twist-ties and metal handles from paper or plastic containers/bags before placing them in the oven.

12. Install or locate this oven only in accordance with the installation instructions provided.
13. Eggs in the shell and whole hard-boiled eggs should not be heated in microwave ovens since they may explode, even after microwave heating has ended.

14. This appliance is intended to be used in household and similar applications such as:
   - staff kitchen areas in shops, offices and other working environments;
   - by clients in hotels, motels and other residential type environments;
   - farm houses;
   - bed and breakfast type environments.

15. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

16. Do not store or use this appliance outdoors.

17. Do not use this oven near water, in a wet basement or near a swimming pool.

18. The temperature of accessible surfaces may be high when the appliance is operating. The surfaces are liable to get hot during use. Keep cord away from heated surface, and do not cover any vents on the oven.

19. Do not let cord hang over edge of table or counter.

20. Failure to maintain the oven in a clean condition could lead to deterioration of the surface that could adversely affect the life of the appliance and become electrically unsafe.

21. The contents of feeding bottles and baby food jars shall be stirred or shaken and the temperature checked before consumption, in order to avoid burns.

22. Microwave heating of beverages can result in delayed eruptive boiling, therefore care must be taken when handling the container.
23. The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

24. Children should be supervised to ensure that they do not play with the appliance.

25. The appliances are not intended to be operated by means of an external timer or separate remote-control system.

26. Accessible parts may become hot during use. Young children should be kept away.

27. Steam cleaner is not to be used.

28. During use the appliance becomes hot. Care should be taken to avoid touching heating elements inside the oven.

29. **WARNING:** The appliance and its accessible parts become hot during use. Care should be taken to avoid touching heating elements. Children should be kept away unless continuously supervised.

30. The rear surface of appliance should be placed against a wall.

31. The microwave oven should be used freestanding but not built-in or in a cabinet.

32. **WARNING:** The door, outer cabinet, oven cavity and accessory will become hot during use. To prevent burns, always use thick oven gloves.
33. IMPORTANT! To prevent damage to the glass plate, DO NOT wash the glass plate with cold water immediately after use when the glass plate is still hot. Allow the glass plate to cool down completely inside the oven before removing it for washing. The glass will break/crack if subjected to sudden temperature change, i.e. when exposed from hot to cold.

34. The microwave oven is intended for heating food and beverages. Drying of food or clothing and heating of warming pads, slippers, sponges, damp cloth and similar may lead to risk of injury, ignition or fire.

35. Metallic containers for food and beverages are not allowed during microwave cooking.

36. Warning: When the appliance is operated in the combination mode, children should only use the oven under adult supervision due to the temperatures generated.

READ CAREFULLY AND KEEP FOR FUTURE REFERENCE
To Reduce the Risk of Injury to Persons

Grounding Installation

DANGER
Electric Shock Hazard
Touching some of the internal components can cause serious personal injury or death. Do not disassemble this appliance.

WARNING
Electric Shock Hazard
Improper use of the grounding can result in electric shock. Do not plug into an outlet until appliance is properly installed and grounded.

This appliance must be grounded. In the event of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric current. This appliance is equipped with a cord having a grounding wire with a grounding plug. The plug must be plugged into an outlet that is properly installed and grounded.

Consult a qualified electrician or serviceman if the grounding instructions are not completely understood or if doubt exists as to whether the appliance is properly grounded. If it is necessary to use an extension cord, use an approved type 3-wire extension cord.

1. A short power-supply cord is provided to reduce the risks resulting from becoming entangled in or tripping over a longer cord.

2. If a long cord set or extension cord is used:

1) The marked electrical rating of the cord set or extension cord should be at least as great as the electrical rating of the appliance.
2) The extension cord must be approved type 3-wire cord.

3) The long cord should be arranged so that it will not drape over the counter top or table top where it can be pulled on by children or tripped over unintentionally.

CLEANING

Be sure to unplug the appliance from the power supply.

1. Clean the cavity of the oven after using with a slightly damp cloth.

2. Clean the accessories in the usual way in soapy water.

3. The door frame and seal and neighbouring parts must be cleaned carefully with a damp cloth when they are dirty.

4. Do not use harsh abrasive cleaners or sharp metal scrapers to clean the oven door glass since they can scratch the surface, which may result in shattering of the glass.

5. Cleaning Tip---For easier cleaning of the cavity walls that the food cooked can touch:
   Place half a lemon in a bowl, add 300ml (1/2 pint) water and heat on 100% microwave power for 10 minutes. Wipe the oven clean using a soft, dry cloth.
UTENSILS

CAUTION

Personal Injury Hazard

It is hazardous for anyone other than a competent person to carry out any service or repair operation that involves the removal of a cover which gives protection against exposure to microwave energy.

See the instructions on "Materials you can use in microwave oven or to be avoided in microwave oven."

There may be certain non-metallic utensils that are not safe to use for microwaving. If in doubt, you can test the utensil in question following the procedure below.

Utensil Test:
1. Fill a microwave-safe container with 1 cup of cold water (250ml) along with the utensil in question.
2. Cook on maximum power for 1 minute.
3. Carefully feel the utensil. If the empty utensil is warm, do not use it for microwave cooking.
4. Do not exceed 1 minute cooking time.

Materials you can use in microwave oven

<table>
<thead>
<tr>
<th>Utensils</th>
<th>Remarks</th>
</tr>
</thead>
</table>
| Aluminum foil  | Do no use aluminium foil for MICROWAVE cooking  
Shielding only. Small smooth pieces can be used to cover thin parts of meat or poultry to prevent overcooking. Arcing can occur if foil is too close to oven walls. The foil should be at least 1 inch (2.5cm) away from oven walls. |
<p>| Browning dish  | Follow manufacturer's instructions. The bottom of browning dish must be at least 3/16 inch (5mm) above the turntable. Incorrect usage may cause the turntable to break. |
| Dinnerware     | Microwave-safe only. Follow manufacturer's instructions. Do not use cracked or chipped dishes. |
| Glass jars     | Always remove lid. Use only to heat food until just warm. Most glass jars are not heat resistant and may break. |
| Glassware      | Heat-resistant oven glassware only. Make sure there is no metallic trim. Do not use cracked or chipped dishes. |</p>

SETTING UP YOUR OVEN

Names of Oven Parts and Accessories

Remove the oven and all materials from the carton and oven cavity. Your oven comes with the following accessories:

- Glass tray 1
- Turntable ring assembly 1
- Instruction Manual 1

Grill Rack (Only be used in grill function and be placed on the glass tray)

Turntable Installation

- Hub (underside)
- Glass tray
- Turntable shaft
- Turntable ring assembly

a. Never place the glass tray upside down. The glass tray should never be restricted.

b. Both glass tray and turntable ring assembly must always be used during cooking.

c. All food and containers of food are always placed on the glass tray for cooking.

d. If the glass tray or turntable ring assembly cracks or breaks, contact your nearest authorized service center.
Countertop Installation

Remove all packing material and accessories. Examine the oven for any damage such as dents or broken door. Do not install if oven is damaged.

Cabinet: Remove any protective film found on the microwave oven cabinet surface. Do not remove the light brown Mica cover that is attached to the oven cavity to protect the magnetron.

Installation

1. Select a level surface that provide enough open space for the intake and/or outlet vents.

(1) **The minimum installation height is 85cm.**
(2) **The rear surface of appliance shall be placed against a wall. Leave a minimum clearance of 30cm above the oven. A minimum clearance of 20cm is required between the oven and any adjacent walls.**
(3) **Do not remove the legs from the bottom of the oven.**
(4) Blocking the intake and/or outlet openings can damage the oven.
(5) **Place the oven as far away from radios and TV as possible. Operation of microwave oven may cause interference to your radio or TV reception.**
(6). Plug your oven into a standard household outlet. Be sure the voltage and the frequency is the same as the voltage and the frequency on the rating label.

**WARNING:**

Do not install oven over a range cooktop or other heat-producing appliance. If installed near or over a heat source, the oven could be damaged and the warranty would be void.

Warning: Hot surfaces

The accessible surface may be hot during operation.
OPERATION INSTRUCTION

This microwave oven uses modern electronic control to adjust cooking parameters to meet your needs better for cooking.

1. Clock Setting

When the microwave oven is electrified, the oven will display "0:00", and the buzzer will ring once.

1) Press "CLOCK/KITCHEN TIMER " once, "00:00" will be displayed.

2) Press "✓" or "☐" to adjust the hour figures, the input time should be within 0--23.

3) Press "CLOCK/KITCHEN TIMER " , the minute figures will flash.

4) Press "✓" or "☐" to adjust the minute figures, the input time should be within 0-59.

5) Press "CLOCK/KITCHEN TIMER " to finish clock setting. ":" will flash.

2. Microwave Cooking

1) Press the "MICROWAVE " key once, and "P100" will be displayed.

2) Press "MICROWAVE" repeatedly or press "✓" or "☐" to select the microwave power from 100% to 10%. "P100", "P80", "P50", "P30", "P10" will display in order.

3) Press "START/+30SEC./CONFIRM " to confirm.

4) Press "✓"or "☐" to adjust the cooking time. (The Max. cooking time is 95 minutes.)

5) Press "START/+30SEC./CONFIRM " to start cooking.

NOTE: the step quantities for the adjustment time of pressing "✓" or "☐" are as follow:
0---1 min : 5 seconds
1---5 min : 10 seconds
5---10 min : 30 seconds
10---30 min : 1 minute
30---95 min : 5 minutes

3. Grill Cooking

1) Press the "GRILL/COMBI." key once, and "G-1" will be displayed.
2) Press "START/+30SEC./CONFIRM" to confirm.
3) Press "\(\checkmark\)" or "\(^\wedge\)" to adjust the cooking time. (The Max. cooking time is 95 minutes.)
4) Press "START/+30SEC./CONFIRM" to start cooking.

Note: If half of the grill cooking time has passed, the oven will sound twice to tell you to turn the food over. You can just leave it to work. But in order to have a better effect of grilling food, you should pause the cooking, turn the food over, close the door, and then press "START/+30SEC./CONFIRM" to continue cooking.

4. Combination Cooking

1) Press the "GRILL/COMBI." key once, and "G-1" will be displayed.
2) Press "GRILL/COMBI." repeatedly or press "\(\checkmark\)" or "\(^\wedge\)" to select the combination mode.
   Stop pressing when "C-1","C-2","C-3" or "C-4" is displayed.
3) Press "START/+30SEC./CONFIRM" to confirm.
4) Press "\(\checkmark\)" or "\(^\wedge\)" to adjust the cooking time. (The time setting should be 0:05-95:00.)
5) Press "START/+30SEC./CONFIRM" to start cooking.

5. Convection Cooking (With preheating function)

The convection cooking can let you to cook the food as a traditional oven. Microwave is not used. It is recommended that you should preheat the oven to the appropriate temperature before placing the food in the oven.
6. Convection Cooking( Without pre-heating function)

1) Press the "CONVECTION " key once, "150℃" will flash.
2) Keep pressing "CONVECTION" or press " ∨ " or " ∧ " to select the convection temperature. Note:the temperature can be chosen from 150 degrees to 240 degrees.
3) Press the " START/+30SEC./CONFIRM " to confirm the temperature.
4) Press the " START/+30SEC./CONFIRM " to start preheating. When the preheating temperature arrives, the buzzer will sound twice to remind you to put the food into the oven. And the preheated temperature is displayed and flash.
5) Pause the cooking, put the food into the oven and close the door. Press " ∨ " or " ∧ " to adjust the cooking time. (The maximum setting time is 95 minutes.)
6) Press the " START/+30SEC./CONFIRM " key to start cooking.

7. Kitchen Timer

(1) Press " CLOCK/KITCHEN TIMER " twice, the screen will display 00:00.
(2) Press " ∨ " or " ∧ " to enter the correct timer.(the maximum cooking time is 95 minutes)
(3) Press "START/+30SEC./CONFIRM " to confirm setting.
(4) When the kitchen time is reached, the buzzer will ring 5 times.
   If the clock was set, the screen will display the current time.

Note:
a. The kitchen timer is different from the 24-hour system. It is not a clock.
b. Even when the door is opened, the Kitchen timer function will continue working.
c. During timer function process, any other program cannot be set.
8. Defrost By weight

1) Press "Weight/Time Defrost" once to choose the defrosting by weight function. "d-1" will be displayed.

2) Press "√" or "∧" to input the weight. The input weight is within 100-2000g.

3) Press "Start/+30Sec./Confirm" to start defrosting.

4) When half the defrost time pass, the buzzer will sound twice remind you to turn the food over, if no action is taken, the unit will continue working and the defrost result is not well.

9. Defrost By time

1) Press "Weight/Time Defrost" twice to choose the function of defrost by time. "d-2" will be displayed.

2) Press "√" or "∧" to input the cooking time. The MAX.time is 95 minutes.

3) Press "Start/+30Sec./Confirm" to start defrosting.

10. Auto Menu

1) In standby mode, press "∧" to choose the function wanted, and "A1","A2","A3"...."A10" will be displayed.

2) Press "START/ +30 SEC./CONFIRM" to confirm the menu you need.

3) Press "√" or "∧" to choose the weight of menu, and "g" indicator will light.

4) Press "START/ +30 SEC./CONFIRM" to start cooking.

Note: Cake menu is under convection cooking with 160°C-warm-up function, and you should preheat first following the auto menu operation. When the oven reaches the 160°C, it will sound twice to remind you to put the cake into the oven, then press "Start/+30Sec./Confirm" to start cooking.

If 2/3 of the cooking time has passed in A10 "Roast Chicken" mode, the oven will sound twice to remind you to turn the food over.

11. Speedy Cooking

1) In standby mode, press "START/+30SEC./CONFIRM" key to cook with 100% power level for 30 seconds. Each press on the same key can increase 30 seconds. The maximum cooking time is 95 minutes.

2) During microwave, grill, convection and combination modes, press "START/+30SEC./CONFIRM" key to cook with 100% power level for 30 seconds. Each press increases the cooking time by 30 seconds.

Note: this function cannot work under weight defrost, auto menu and multi-stage cooking.

3) In standby mode, press " \( \bigvee \) " to choose the cooking time directly. After choosing the time, press "START/+30SEC./CONFIRM" to start cooking. The microwave power is 100%.

12. Multi-stage cooking

At most 2 stages can be set for cooking. In multi-stage cooking, if one stage is defrosting, then defrosting shall be placed at the first stage automatically.

Note: Auto cooking and preheating cannot work in the multi-stage cooking.

Example: If you want to defrost food for 5 minutes and then cook with 80% microwave power for 7 minutes, operate it as the following:

1) Press "Weight/Time Defrost" twice, and the oven will display "d-2".

2) Press "\( \bigvee \) or \( \bigwedge \)" to select the defrost time till "5:00" is displayed.

3) Press "Microwave" once, the screen will display "P100".

4) Press "Microwave" once again to choose 80% microwave power.

5) Press "Start/+30Sec./Confirm" to confirm, and the screen will display "P 80".

6) Press "\( \bigvee \) or \( \bigwedge \)" to adjust the cooking time till the oven will display "7:00".

7) Press "START/+30SEC./CONFIRM" to start cooking. The buzzer will sound once to enter the first stage cooking and the defrosting time will begin counting down. The buzzer will sound once again entering the second stage. When the cooking has finished, the buzzer will sound five times.
13. Lock-out Function for Children
Lock: In standby mode, press "STOP/CLEAR" for 3 seconds, there will be a long "beep" denoting entering into the children-lock state and the lock indicator will light. The screen will display current time or 0:00.

To unlock: In locked state, press "STOP/CLEAR" for 3 seconds, there will be a long "beep" denoting that the lock is released, and the lock indicator will disappear.

14. Inquiring Function
(1) In cooking state, press "MICROWAVE" "CONVECTION" or "GRILL/COMBI." to check the cooking power.
(2) In cooking state, press "CLOCK/KITCHEN TIMER" to check the current time.

15. Special Specifications
(1) "START/+30 SEC./CONFIRM" must be pressed to continue cooking if the door is opened during cooking;
(2) Once the cooking programme has been set, if "START/+30 SEC./CONFIRM" button is not pressed within 5 minutes, the setting will be cancelled. The current time will be displayed.
(3) The buzzer will sound once with each successful press of a button. An unsuccessful press will have no response.
(4) The buzzer will sound five times to remind you when the cooking has finished.

12 Month Warranty

Thank you for your purchase from Kmart.

Kmart Australia Ltd warrants your new product to be free from defects in materials and workmanship for the period stated above, from the date of purchase, provided that the product is used in accordance with accompanying recommendations or instructions where provided. This warranty is in addition to your rights under the Australian Consumer Law.

Kmart will provide you with your choice of a refund, repair or exchange (where possible) for this product if it becomes defective within the warranty period. Kmart will bear the reasonable expense of claiming the warranty. This warranty will no longer apply where the defect is a result of alteration, accident, misuse, abuse or neglect.

Please retain your receipt as proof of purchase and contact our Customer Service Centre on 1800 124 125 (Australia) or 0800 945 995 (New Zealand) or alternatively, via Customer Help at Kmart.com.au for any difficulties with your product. Warranty claims and claims for expense incurred in returning this product can be addressed to our Customer Service Centre at 690 Springvale Rd, Mulgrave Vic 3170.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

For New Zealand customers, this warranty is in addition to statutory rights observed under New Zealand legislation.
