Paint Your Own Unicorn Pot

8+
years

How To Paint

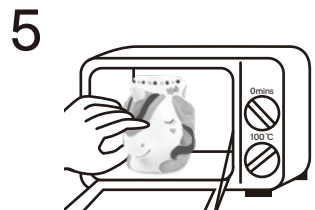

1 Clean the unicorn pot with a cloth and use the paintbrush to paint on it.

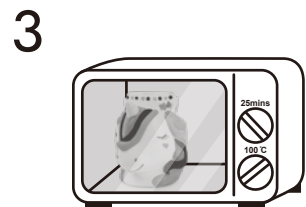

4 Bake the pot at 100°C / 212°F for about 25 minutes.

2 Dry the pot for 24 hours after you have finished painting.

5 Remove the pot out of your oven after cooling off.

3 Put the pot in a normal gas or electrical oven, NOT a microwave.

6 Your own unique pot is now complete.

DIRECTIONS:

1. Wear an apron before you start painting.
2. Think before you paint and draw.
3. Use newspaper to protect your table before you start painting.
4. Close the paint lids after use.
5. Wash the paintbrush with water before you paint with another colour and wash thoroughly after each use.

DON'T:

1. Do not bake immediately after you have finished painting the pot as the paint takes time to dry off.
2. Do not remove the pot out of your oven immediately after baking as it is very hot.
3. Ensure to use a normal gas or electrical oven, NOT a microwave.

NOTE:

Mixing White and other colours will make a close shade to Pastel colours.

TIPS:

1. You can add a few drops of water to the paint if it looks too dry or sticky.
2. Freely mix up colours to create new ones.
3. Before the paint has dried, you can wipe off the colours by tissue or wash the pot if you make a mistake. Please note: After you have baked the pot, the paint colours may not wash or wipe off easily.
4. To protect your colours, allow the pot to dry for one day before baking. If you bake them too soon, the colours will be dull.
5. Allow your pot to cool completely before using.
