LISTENING TO THE RADIO

FM and AM aerials

When listening to FM radio it is always important to extend the telescopic aerial. The aerial has a swivel base and can be moved to the position that gives best reception.

The AM aerial is built inside the radio case. There is no need to extend the telescopic aerial when listening to AM radio, though signal may improve slightly if the radio is turned on its base.

Switching the radio on or off

- Press the **⏻/MODE** button to switch the radio on.

The display will light and the radio will switch on, tuned to the last station you played.

- Press and **hold** the **⏻/MODE** button to switch the radio off.

Setting the volume

- Turn the **VOLUME** control clockwise to increase the volume or anti-clockwise to decrease the volume.

Tuning to a different station

- Turn the **TUNING** control clockwise to tune up the band or anti-clockwise to tune down the band.

The display will show the tuned frequency in MHz (FM) or kHz (AM).

Changing between FM and AM bands

- Press the **MODE** button **briefly**.

The radio will change between FM and AM bands.

PRESET STATIONS

Your radio can store up to 30 of your favourite stations as presets.

Storing presets automatically

You radio will scan the band and automatically store all stations found as presets.

- Press the **SCAN** button.

The radio will now scan the band and store any stations found as presets. This process may take a minute or so.

Storing presets manually

- Tune to the station you want to store as a preset.
- Press and **hold** the **PRESET** button.

'P' will be displayed with a flashing preset number to store.

- To choose a preset location to store your station, turn the **TUNING** control to change the preset number displayed.
- To store the station playing in the preset number displayed, press the **PRESET** button.

The preset number will stop flashing to indicate that the preset has been stored.

To recall a preset

- Press the **PRESET** button.

The last used preset number will be displayed.

- Turn the **TUNING** control to browse the preset stations you have stored.
- When you stop browsing the station will be selected.

The radio will tune to the selected preset station.
