

Melty Beads Mega Bucket

WARNING:
CHOKING HAZARD- SMALL PARTS.
NOT FOR CHILDREN UNDER 3 YRS.

WARNING: BURN HAZARD, THE IRONING MUST BE
DONE BY AN ADULT. SOME IRONS MAY PRODUCE STEAM,
KEEP CHILDREN AT A SAFE DISTANCE TO AVOID INJURY.

Follow these steps to create your melty bead design.

1. Using a flat surface for your peg board, place individual beads on a melty bead peg board one by one to create your design. Follow a melty bead picture or create your own design.

2. Ask an adult to melt your bead design together with an iron(not included). Adult ironing instructions: Pre-heat the iron, place the ironing paper over the design, and gently iron the beads in a circular motion for 10 to 15 seconds. Be sure to apply even pressure across the design and keep the iron level. Do not allow children to touch the beads while hot.

3. Once the design has cooled, peel off the ironing paper. Remove the design from the reusable melty bead peg board. Following the same ironing instructions turn the design over, lay the ironing paper over the design, and melt the other side evenly.
