Assembly Instruction

Note: To assemble easily and successfully, please keep the bolts 70% of tightness while installing the parts, then fasten all the bolt and nuts fully after finished assembly.

Step 1. Connect 2pc stabilizer (1) and 1pc cross bar (2) together, then secure them with bolt, washer and nut (9,10,11).

Step 2. Put right & left upright pole (3,4) on the part of step 1, then secure them with bolt, washer and nut (8,9,10). Insert the top cap (7) into the tube of right & left upright pole.

Step 3. Connect curl bar holder (6) and the part of step 2 together, then secure them with bolt, washer and nut (9,10,11)

Step 4. Insert the 4pcs weight tube (5) into the hole of right & left upright pole, secure them with bolt (12). After this. The product is finalised and ready for use.

WARNING:

1. Always put a clip on the outside of weight tube to prevent the weight plate coming off.
2. The product must be placed on a hard, flat surface, cover the floor with carpet to prevent damage to the ground.
3. Check the parts and tighten all bolts and nuts regularly, never use the product if all components are **NOT** fully secure.
4. Always keep children away from the product unless they are supervised by an adult.
5. Wipe clean with damp cloth. Do not use abrasive materials or solvents.
6. Always store the product on a flat surface, and in a dry and well ventilated area.
