# Tie Dye Jewellery

6+  
years

## SET UP:

1. Cover your work area with plastic covering, such as a plastic tablecloth or garbage bag.
2. Prewash and dry the fabric before dyeing. This will remove anything in the fabric that prevents the dye from being absorbed.
3. Have all tools you need at the work area.

## START:

1. Wear old clothes or an apron.
2. Fill the bottle with water and replace the cap tightly, shake the bottle until the dye is completely dissolved.
3. Lay the fabric out flat on the working table, fold, twist or scrunch the fabric.
4. Wear gloves and spray the dye onto your bracelet wrap.
5. Put your dyed fabric into a plastic bag (not included), simply leave the closed bag in a safe place, the dye will need to set for 24 hours.
6. Remove your dyed fabric from the plastic bag and check out your design.
7. Fill a bucket (not included) with water, place your dyed fabric in the bucket, and rinse the fabric well until excess dye is removed, then hang to dry.
8. Thread the beads to create your own unique bracelet.

## NOTE:

For brighter colours, add less water into the dye powder, for lighter shades, add more water.

**Read through the instructions and warnings on this sheet before beginning.**

**Keep this instruction sheet for future reference.**

 **WARNING:**  
LONG CORD AND SMALL PARTS. STRANGULATION AND  
CHOKING HAZARD. NOT FOR CHILDREN UNDER 3 YEARS
