

Water Trampoline 8ft BF

Key Code: 43206148

SAFETY INFORMATION

Warning! Please read carefully and keep for future reference. Failure of following the instruction may cause injuries to health or death.

Warning! No protection against drowning. Keep distribution of persons or loads evenly while use in water.

1. This water trampoline is designed for use in water only. Don't use on land, on or around hard surfaces.
2. Children should be under the supervision of an adult all the times.
3. Don't use as a life saving device.
4. Diving and swimming underneath the trampoline is forbidden.
5. Don't jump on the trampoline from a different object (like jumping platform, etc.) or jump from the trampoline onto another object.
6. Don't use in darkness.
7. Don't use in shark infested water or in water that may contain other marine life dangers to humans.
8. If use in an indoor pool make sure there is enough clearance space to the ceiling.
9. Always inspect the area around and under the trampoline before each use to ensure that the water is deep enough and free of all rocks, logs, sand bars, and underwater obstructions for at least 3m in all directions.
10. Take off watches, rings and other sharp objects before use.
11. Ensure proper air pressure is maintained while the product is in use. Check pressure by squeezing with two hands especially on very hot/cold days.
12. Always anchor the trampoline securely on all the anchor points before it is used.
13. Never use the trampoline in rough surface water conditions, during high winds or when there is thunderstorm (e.g. lightning).
14. Inspect the trampoline before each use and replace any worn, defective or missing parts.
15. Don't use in strong currents and secure against wind according to anchoring information (strong wind = Beaufort 5)

PART LIST

- 1) INFLATABLE TRAMPOLINE X 1PC
- 2) HAND-OPERATED PUMP X 1PC
- 3) SAND BAG X 1PC
- 4) REPAIR PATCH X 2PCS
- 5) PLASTIC WRENCH X 1PC

INFORMATION SYMBOLS ON PACKING AND PRODUCT EXPLANATIONS

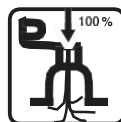

General warning sign

General mandatory action sign

General prohibition sign

Fully inflate all air chambers

Not for children 6 years age and below

Design working pressure

Swimmers only

No protection against drowning

Number of users adults/children

Always supervise children in water

Maximum load capacity

Read instructions first

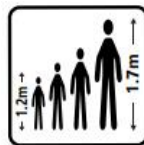

No diving

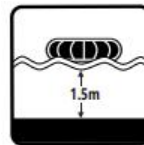

Do not swim underneath the structure

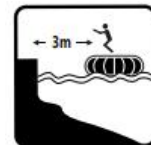

Do not jump if water is not clear

Size range: 1.2m to 1.7m body height

Required min. water depth underneath object 1.5m

Ensure safe distance to dangerous obstacles and spots 3.0m

Do not use in offshore current

Do not use in offshore wind

Need provides floating stability

Wear personal protective equipment

SET UP INSTRUCTIONS

1. Valve operation

Screw out the lid with valve wrench, then the center valve pin is appeared. You can close/open the valve by pressing it once and again. Please refer to below images.

2. To inflate the trampoline, please follow the below steps

- Inflate product through each vales according to the sequence marked on the information symbol nearby vales.
- Unscrew the valve cap and press down on the pin to open the valve. Let the air flow naturally into the product, then press down on the pin again to close the valve (in the UP position).
- Attach the hand-operated pump hose clockwise onto the valve, and pumping air into the trampoline.
- After fully inflating, screw the valve lid and tighten it with plastic wrench.

3. To deflate the trampoline, screw out the valve lid with plastic wrench, then press the valve central pin to let it is in open position, please be careful of any sand or debris around the valve area when deflating as the small particles could become airborne together with the release of the air pressure.

USE INSTRUCTIONS

The water trampoline can be set up in minutes with the included hand-operated pump, and it has the handles, which are convenient for moving or transport. The ladder is for easy climb up and down. The sand bag is designed to keep it balance in water while climbing by ladder, It can be filled with the maximum 20kgs sand or weights (not included), and connected to the D-ring which located at the opposite position of the ladder while using on water.

Note: 1). Only allow a maximum of 1 user at one time, and The maximum user weight is 70kgs.

- Always jump in the jumping area.
- The trampoline can be fixed on the water through a rope (not included) by tied between the D-ring at the bottom and locking device.
- Use the included latch fastener on the sand bag to connect it with the D-ring together directly while using.

REPAIR INSTRUCTIONS

If a chamber is damaged, use the provided repair patch.

- Completely deflate the product.
- Clean the damaged area, and let it dry completely.
- Cut a piece from the repair patch, ensure it is larger than the area to be repaired and no rounded corners to prevent peeling.
- Apply the vinyl repair glue sparingly to patch, spreading out it evenly all over, then cover to the damaged area and smooth out any air bubbles.
- Place a weight on the repaired area, and allow 24hours to reach full bond strength.

CLEANING AND STORAGE INSTRUCTIONS

- After deflation, use a damp cloth to gently clean all surfaces. Don't use solvents or other chemicals that may damage the product.
- Store in a cool, dry place and out of children's reach.
- Check the product for damage at the beginning of each season and at regular intervals when in use.
