Bowl Elevated Stand

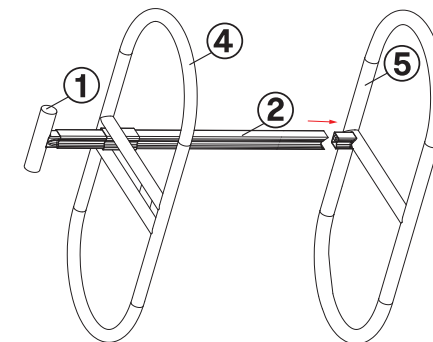

Step 1

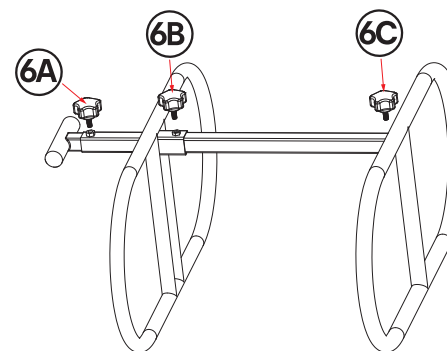

Insert the handle into the support pillar.
Ensure that the support pillar
passes through the bowl holder.

Step 2

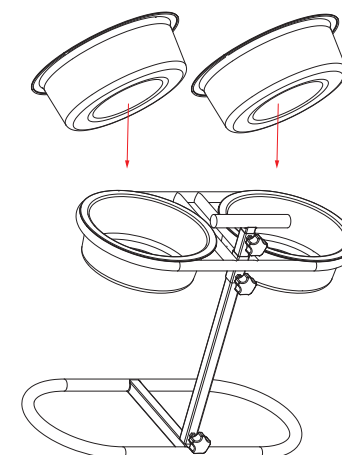

Insert the support pillar into the base.

Step 3

Tighten all parts with the screws.
Screw 6A is for adjusting the handle height
Screw 6B is for adjusting the bowl height
Screw 6C is for attaching to the base.

Step 4

Assembly finished.
Place the stainless steel bowls
on the stand.
