- > 3 x macrame cords
- > 1 x instruction sheet

Cut The Cords

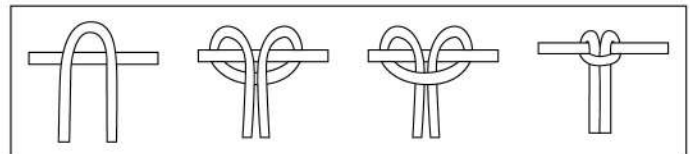

Each Colour

- > 120cm x 7pcs
- > 90cm x 1pc
- > 80cm x 1pc
- > 70cm x 1pc
- > 60cm x 1pc
- > 50cm x 1pc

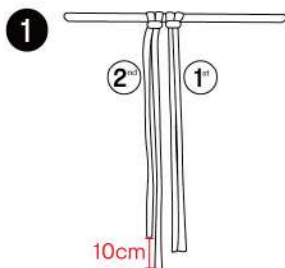

Double Half Hitch (DHH) Knot

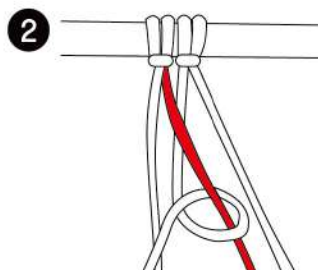

Lark's Head Knot (LHK) -bar In Front

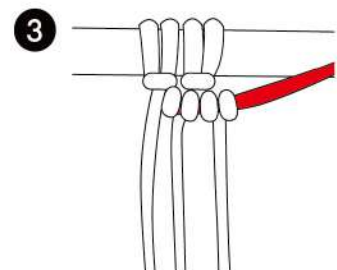

How To Make A Mini Wall Hanging

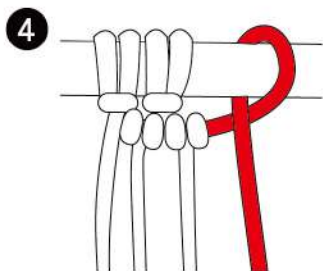

Fold 2pcs of 120cm cord in half and tie them to the wooden rod using knots - LHK -bar in front. The 1st cords shown above should be even in length. The 2nd cords should have one cord longer than the other. Adjust the lengths, making the right cord 10cm longer than left cord, matching the example above.

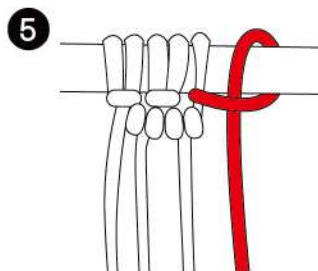

Take the 2nd cord from left as a core cord and tie it to the 3rd cord using a DHH knot.

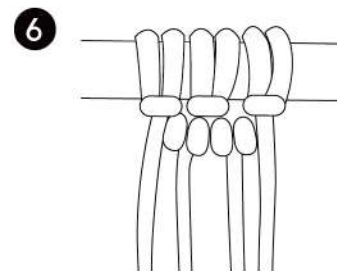

Using the core cord again repeat step 2, tying a DHH knot onto the next cord as shown. Knots should be made in the direction of left to right.

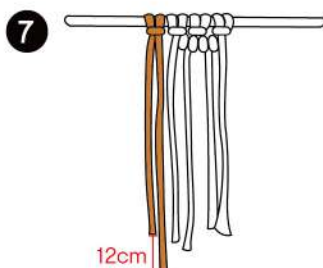

Take the core cord again, and tie a knot on the rod as shown.

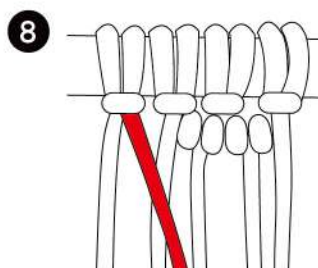

Take the core cord again repeat step 4 making a 2nd knot as shown.

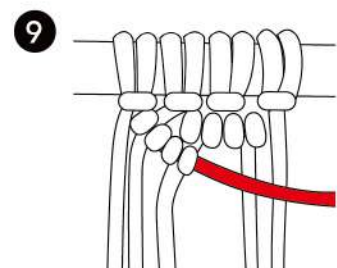

Tighten the knots to complete the 1st row.

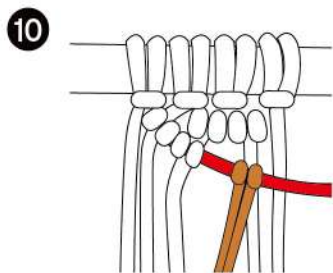

Fold 1pc of 120cm cord in half and tie it to the left side of the wooden rod using a knot - LHK -bar in front. Adjust the lengths, making the right cord 12cm longer than left cord, matching the example above.

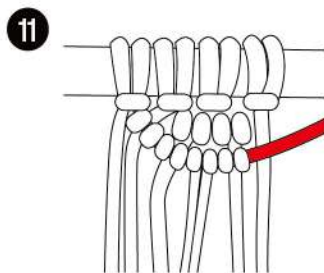

Take the 2nd cord from left as a core cord and tie it to the 3rd cord using a DHH knot.

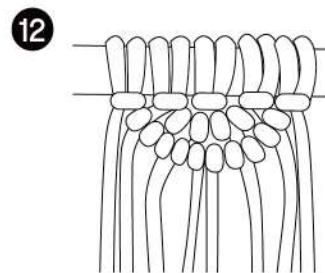

Using the core cord again repeat step 8, tying a DHH knot onto the next cord as shown.

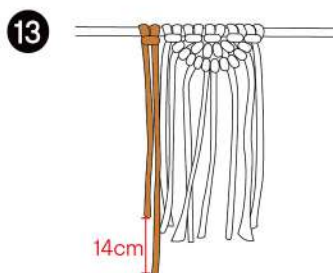

Next, to fill the gap between the cords, fold 1pc of 90cm cord in half and tie it onto the core cord using a knot - LHK -bar in front.

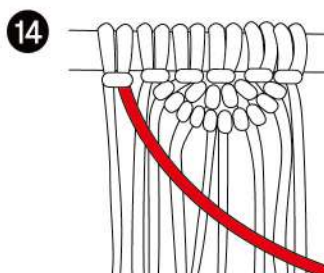

Using the core cord again, continue making a DHH knots onto the next cords as per step 8, until you reach the last cord.

Repeat step 4-6 to attach the cord to the wooden rod and complete the second row.

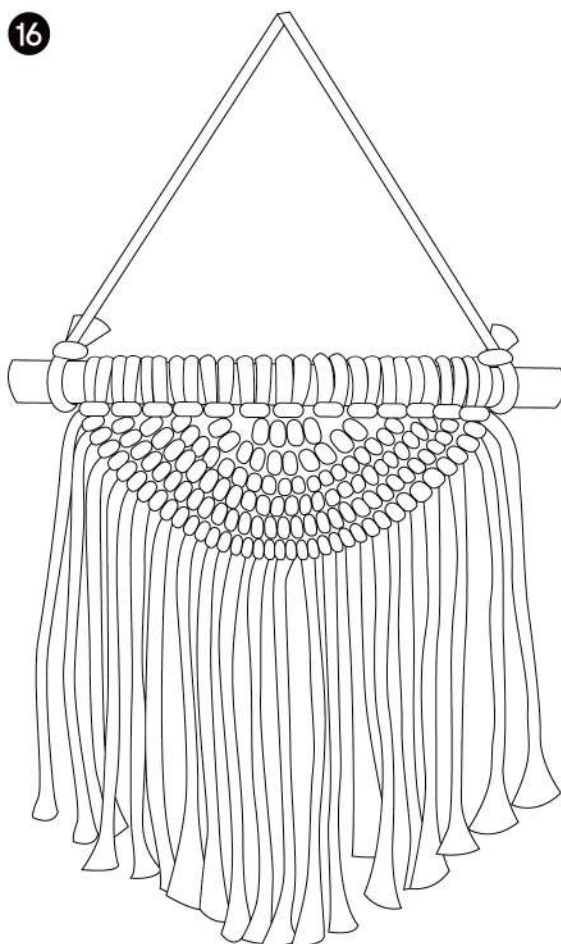

Fold 1pc of 120cm cord in half and tie it to the left side of the wooden rod with a LHK -bar in front. Adjust the lengths, making the right cord 14cm longer than left cord, matching the example above.

Take the 2nd cord from left as a core cord and make DHH knots with all cords for the 3rd row. When you find a gap between the cords, fold 1pc of 80cm cord in half and tie it onto the core cord using a knot - LHK -bar in front.

Repeat steps 7-13 to make total 6 rows. With each row, you will add an extra cord where you find a gap, to fill the row.
Row 4: Add a 70cm cord and adjust the lengths, making the right cord 16cm longer than left cord.
Row 5: Adjust the lengths, making the right cord 18cm longer than left cord.
Row 6: Add a 60cm cord and adjust the lengths, making the right cord 20cm longer than left cord

Take 1pc of 50cm cord and make tie it to wooden rod for hanging. Trim the cord ends neatly to complete your wall hanging.
