

Solar Powered Light Up Foilage Presents

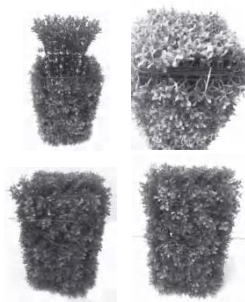

Assembly Diagram:

A  Solar Panel with wire x1	B  Plastic Cylinder x1	C  Plastic Spike x1	D  Small Present box lid x 1	E  Small Present box frame x 1
F  Big Present box lid x 1	G  Big Present box frame x 1	H  Small bow ribbon x1	I  Big bow ribbon x1	J  Plastic ties x20

Instructions:

- Assemble the present box, put the small box lid on the small frame, big box lid on the big frame as shown on the photo Use the plastic ties to fix the lid to frame.
- String the wire lights around the outer frame of the box

- Apply Small Bow Ribbon (H) to small box, and Big Bow Ribbon (I) to big box, ensuring ribbon is on all 4 sides, crossing over on the bottom, with bow at the top

- Assemble the solar panel

Connect A-Solar Panel B- Plastic Cylinder C-Plastic Spike

- Attach part B on to the back of solar panel A, then attach C to B by pressing firmly.
- Turn the OFF/ON switch to “ON” position. You will only need to do this once, as the solar panel will turn the lights on and off automatically.
- Place entire unit in a sunny position where there is soft ground to enable the spike to be pushed in easily.

Specification:

Warm White LED

50x50mm Amorphous Solar Panel

1x AAA Ni-Cd rechargeable battery 1.2V, 300mAh

Static function

IMPORTANT:

- Charge battery for at least 8 hours before first use.
- The solar light panel MUST be placed in a well-lit location for the brightness and lighting duration.
- Put the switch on the “OFF” position when not in use or in storage.
- Use a damp cloth to clean it when there is a buildup of dust and/or dirt on the surface of the solar panel.

Battery Replacement

The battery is non-replaceable. DO NOT attempt to replace it.

Bulb Changing

The light set is constructed with non-replaceable bulbs. DO NOT attempt to replace any of the bulbs in the light set.

**WARNING: FOR DECORATION ONLY. THIS IS NOT A TOY. DO NOT ALLOW
CHILDREN TO PLAY WITH AND HANDLE LIGHT SETS.**
