Compact Garment Steamer S06 User Manual

PLEASE READ AND SAVE THESE
INSTRUCTIONS FOR FUTURE REFERENCE

IMPORTANT SAFEGUARDS

When using any electrical product, always follow these basic safety precautions:

READ ALL INSTRUCTIONS BEFORE USE.

Read and understand all instructions before using this product and follow all warnings and cautions in the manual.

1. Please read this User Manual carefully prior to using this appliance. Household and indoor use only, not for commercial use.
2. Please use correct voltage: 220-240V~ 50-60Hz, only connect the appliance to an earthed wall socket. No adjustments are required for operation at the rated voltage or frequency.
3. To avoid electric shock or other hazards, do not immerse the appliance, plug, power cords into water or other liquids.
4. If the supply cord is damaged, it must be replaced by qualified electrical person in order to avoid a hazard or the product must be disposed.
5. Do not leave the steamer unattended while it is in operation.
6. Do not unplug the unit by pulling on the power cord, unplug the appliance by pulling on the cord plug.
7. Do not add hot water or other corrosive cleaning agents into the water tank, this may damage the appliance. Demineralized water or distilled water is strongly recommended.
8. Do not add water during use.
9. Do not fill the tank with solutions such as detergent and perfume.
10. When not in use or during storage, switch off and unplug the appliance, allow to cool down then empty the water tank.
11. Do not operate the appliance when it shows visible damage. To avoid electric shock or other hazards, do not attempt to repair the appliance by yourself.
12. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have given supervision or instructions concerning use of the appliance by person responsible for their safety.
13. Children should be supervised to ensure that they do not play with the appliance.
14. This appliance is intended for household use only. Any other use will void warranty.

CAUTION: It may cause scalding if the user touches the steam nozzle or steam. Do not place/use the appliance upside-down.

CAUTION: Hot Steam. To avoid scalding, install the steam nozzle correctly and never operate the product without the steam nozzle.

15. Care should be taken when using the appliance due to the emission of steam. To prevent hazards caused by high-temperature steam, do not direct steam at people or animals when using the appliance.
16. Do not touch the steam outlet during operation.
17. Only use accessories provided by the manufacturer. The use of any accessory or attachment other than those provided by the manufacturer may result in fire, electric shock or irreversible damage to the appliance.

18. Steam only in a vertical motion. Never use the steamer horizontally or tilted backwards, as it may result in hot water discharge.
19. Use a dry, soft cloth and a neutral detergent to clean the surface of the appliance. Do not use solvents such as gasoline, alcohol etc.
20. For filling, please refer to “HOW TO USE YOUR COMPACT GARMENT STEAMER” section.
21. For cleaning and descaling, please refer to “CLEANING AND MAINTENANCE” section.

IMPORTANT! Unplug the appliance from mains power and allow the appliance to cool down before filling and cleaning.

CAUTION: To avoid danger of electric shock, unplug from mains power outlet when not in use. If the power cord is damaged, it must be replaced by a qualified electrical person in order to avoid a hazard or the product must be disposed of.

HOW TO USE YOUR COMPACT GARMENT STEAMER

CAUTION!

When the water tank runs out of water, make sure the appliance cools down completely before refilling with water.

The high temperature steam from the steam nozzle can reach 100°C. **Always ensure that the material is high-temperature resistant before steaming. Do not hold the spraying nozzle on the same spot for too long to avoid damaging the garment.**

CLEANING AND MAINTENANCE

To ensure the best performance of the compact garment steamer, it is necessary to regularly wipe off impurities inside the water tank. We recommend that you clean the water tank at least once per month for optimal performance.

CAUTION! Do not immerse the appliance in water or any other liquid.

- Turn off the power switch and pull out the plug. Allow the compact garment steamer to cool down completely.
- Make sure the water level is above the MIN mark. Shake the appliance and let out the remaining water.
- Use a dry clean cloth to dry the appliance. No special cleaning detergent is needed.

Note: Make sure the appliance is cooled down, empty, clean and dry before storage.
