210mmW x 297mmH
/
6400-AU_V-Twin_IM_02-09-24

Purposes/Remark:
Kmart ver.

Responsible by: _____ Prepared by: **Kenji** Approved by: _____ Issue Date: **02-09-2024**

3. Installing/Removing the Storage Drums

- With the Drums facing forward, align the lower arm with the lower catch (see diagram).
- Push upper arm forward to lock the Drum into place. Ensure that both Drums have been installed.
- To remove, push the Drum downwards.

4. Installing the Cartridge Belt

- (a) Push back the Breech Lock, and lift the Breech Cover.
- (b) Slide Cartridge Belt over the front of launcher and loop over the two Drums.
- (c) Close Breech Cover (see diagram).

5. Start to Play

- Hold down the Rev-Trigger and press the Trigger to launch your darts.
- Each pull of the Trigger will launch a single dart.
- Holding down the Trigger continuously will launch all your darts.

Trouble Shooting:

Problem	Suggestion
Pressed Trigger; No Response	<ul style="list-style-type: none"> •Check that batteries have been inserted in the correct polarity. •Check that the Breech cover has been locked in place.
Pressed Trigger; Motor moves; but does not fire	<ul style="list-style-type: none"> •Check that the Darts have been inserted all the way to the rear of the Cartridges.
Darts travel only a short distance	<ul style="list-style-type: none"> •Replace the batteries •Rapid depressing and releasing the Trigger does not give sufficient time for the motors to spin. Hold down the Trigger for a longer period of time.
Gatling jams during firing	<ul style="list-style-type: none"> •Lift Breech Cover. •Remove Ammo Belt by lifting the rear end upwards. Retrieve jammed Dart. •Reload and replace Ammo Belt.
After forcibly stopping the front barrel from spinning, the Gatling does not function	<ul style="list-style-type: none"> •This is a built-in safety feature. Release Trigger. Wait 1 minute for the motors to cool down. Resume play.
Ammo Belt does not rotate	<ul style="list-style-type: none"> •Check that Ammo Belt has been positioned correctly in the drive gear.
