› When camera is automatically shut down due to low voltage or battery, it has to use adapter to charge before use.
› The power adapter should use the specified 5V / 1A , and other types of adapters may conflict with this product
› Regular charging the product for every month is to ensure the life of the product, while pro-longed period of idle or low battery level may lead to battery life issue.
› Only use the charging cable provided to charge the camera
› Built-in battery is not removable and replaceable, if damaged should contact service and repair.
› Guardians should keep watch over children while they play

Precautions for Printing:
1. To ensure the safety of your children, only adults can change the paper roll and need to ensure that the paper slot (printer cover) is always closed.
2. Please do not open the paper slot during the printing process or just after printing. Let the print head cool down sufficiently before replacing the printing paper.
3. Do not pull out the print paper when the paper slot is closed as this may damage the camera.
4. The printing paper needs to be preheated, because the first few sheets and the last few sheets of each roll of printing paper are fixed with glue, and the printed photos may be uneven.
5. Please keep the printing paper clean and dry to avoid dust or stains affecting the printing effect.
6. When taking photos, pay attention to focusing and lighting to avoid printing blurry photos.
7. After printing, please store the photos properly in time to avoid exposure to sunlight or strong light, moisture or damage.

8. The camera comes with 4 rolls of printing paper, one roll is included in the camera and the other three rolls are placed in the packaging box.
9. This camera contains a roll of printing paper, so it will make noise when you shake or move the camera, but this does not affect the quality of the product, so please feel free to use it.
10. The camera has 2 different print modes: gray print and dot print. You can choose the appropriate print mode and print density according to the actual scene to obtain better results.
11. Before using the camera for the first time, please fully charge the camera before use.
12. After printing out more than 10 photos, the camera may get hot. It is suggested to let it for 1 min before resuming the printing.

Safety Instruction
1. Keep the appliance away from all hot surfaces and naked flames.
2. Always put the appliance on a level, stable, clean, dry surface.
3. Protect the appliance from extreme heat and cold, dust, direct sunlight, humidity and drops or jets of water.
4. Do not immerse the appliance in water or in other liquids.
5. Do not open the housing under any circumstances.
6. Do not introduce any objects into the interior of the housing.
7. Should the device malfunction due to electrostatic discharge or a short power surge, disconnect it from your computer and then reconnect it again.
8. Please wipe the surface stains with dry cloth. When cleaning this product, ensure that the charger is disconnected.
9. Regular checking cables and product in case it's damaged. If it is damaged, stop using immediately.
10. Built-in battery is not removable and replaceable, if damaged should contact service and repair.

ably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

12 Month Warranty
Thank you for your purchase.
Your new product is warranted to be free from defects in materials and workmanship for the period stated above, from the date of purchase, provided that the product is used in accordance with accompanying recommendations or instructions where provided. This warranty is in addition to your rights under the Australian Consumer Law.
For New Zealand customers, this warranty is in addition to statutory rights observed under New Zealand legislation.
We will provide you with your choice of a refund, repair (where possible) or exchange (availability dependent) for this product if it becomes defective within the warranty period. The business will bear the reasonable expense of claiming the warranty.
This warranty will no longer apply where the defect is a result of alteration, accident, misuse, abuse or neglect.
Please retain your receipt as proof of purchase and contact our Customer Service Centre as listed below, for the entity you purchased this product from, for any difficulties with your product. Warranty claims and claims for expense incurred in returning this product can be addressed to the respective Customer Service Centre.
Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reason-
