IV. Function and Operation

VI. Battery and Charger Operating Guide

- The charging socket is located at the rear.
- Only use the battery and charger provided.
- Please do not play with the charger and battery because they are not toys.
- The battery charging operation is carried out by adults only.
- The battery shall be fully charged before first use; the battery charging time shall be 9-10 hours and can not exceed 15 hours.

1. Battery warning:

- When storing the car for long periods of time, charge the battery until full then turn off the power switch. The battery should be recharged once every other month, or may otherwise have a shorter life span and risk deteriorating.
- When installing the battery, it is important that the positive and negative poles are correctly connected. Short circuiting of positive and negative poles may result in damaging the toy.

7
