

DIY Painted Clutch Craft Kit Instruction Manual

Kit Includes

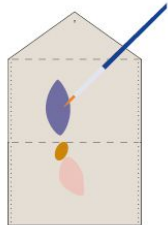

- > 1 x faux leather bag template
- > 6 x paint pots
- > 1 x paintbrush
- > 1 x thread
- > 2 x sewing needles
- > 1 x instruction sheet

Tips

- > Mix the paints to create new colours and colour tones.
- > Let each paint colour dry before adding a new colour.
- > Follow the flower design pattern or create your own design.

How To Paint The Clutch

1

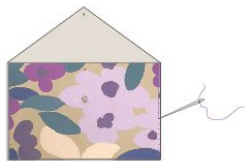

Lay out the faux leather template with the metal pin facing upwards. Begin painting the base with your desired paint colour.

2

Continue painting using the remaining colours, leaving the paint to dry between each colour. Wait for paint to dry completely before continuing to the next step.

3

Fold the template so the stitch holes align. Sew the sides together using the needle and thread.

4

To complete the clutch, fold the flap down and secure the hole onto the metal pin to close the bag.
