Water tank

The machine has a water level detector which will automatically power off the unit if water is too low. Please ensure there is always adequate water to avoid damaging the diffuser.

Auto shut off function

When water is running out, the unit will flash red light 3 times and then turn off. The machine will automatically power off if abnormal overheating is detected.

When product with LED lights ON stops automatically due to water running out, pressing mist mode will also turn ON and resume previous LED lights setting.

Cleaning and maintenance

The machine should be cleaned after using for 3-5 days continuously, to keep it working normal and extend the lifetime. 1. Unplug the machine before cleaning.

2. Please clean water tank with a brush and white vinegar or dilute with detergent and warm water. Others part of the cover can be cleaned with a soft cloth.

3. Please do not put the whole machine or base into water. Temperature of water should not exceed 40 degrees when cleaning.

4. When the machine is not used for a long period of time, please pour out the water in the tank and wipe off the drops, then place it in a shady and cool place to avoid direct sunlight. 5. Please clean the tank regularly.
