Blaster Team Colour Change:

Blaster Reload:

Scoring Hits:

Activating Blast Shield:

During Game Play:

- Blasters can hit Receivers up to 90 m away.
- Squeeze the trigger once to fire a single blast. Hold the trigger down for rapid fire.
- When hit, the Team Colour of the player that hit you will flash on your receiver and then the game life indicator will change from Green to Red.
- Eight hits and you are out.
- For each minute you are not hit, you automatically get one hit "back".
- When you are out, you must turn your Blaster OFF and re-select your team to start a new game.

Tips:

- Very bright sunlight will decrease Laser Blast range.
- Indoors, Laser Blaster beams can be bounced off walls and mirrors to hit your opponent.
- You can blast through windows.
- Turn your Laser X Gear to OFF when not in use. Leaving it on will drain batteries.
- If your Laser X Gear is not working properly, replace the batteries with BRAND NEW batteries.

Be a Good Sport:

- Don't cover your Blaster's Receiver or hide it.
- Don't reset your Blaster during play.
