Kids smart watch

Please read user manual carefully before use

Includes
Kids smart watch
4-pin magnetic charging cable

SAFETY AND WARNINGS

Misuse of batteries lead to them bursting, causing a fire or chemical burns. Please read the below precautions:

- Do not disassemble.

- Do not crush and expose the battery to shock or force. Such as hammering, dropping, or stepping on it.

- Do not short circuit.

- Do not be exposed to high temperatures or place near a heat source.

- Do not leave in direct sunlight for any length of time.

- Do not dispose of it in fire.

- Do not handle damaged or leaking batteries. Keep the battery out of the reach of children. Keep the battery dry.

- If you notice any signs of damage, cease use, and contact supplier support.

- Dispose of the item at a suitable waste station, as the battery cannot be added to normal waste.

- Keep the watch clean by wiping it with a slightly damp cloth.

- Keep the watch out of direct sunlight and away from any direct heat source.

- Do not drop the watch on a hard surface. Do not expose it to moisture or immerse it in water.

- Keep the lens clean. If the pictures taken are blurry, it could be because there is dust or dirt on the lens. You can clean the lens by:
  - Blowing on the lens.
  - Gently wipe the lens with a dry cloth.
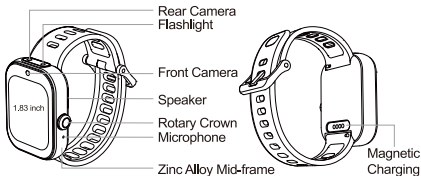

- Charging should only be completed by an adult.

OVERVIEW

Introduction

This smart watch is a great wearable gadget for children! In addition to show the time, you can also take photos, shoot videos, record voice and play games!

The watch may come with a small amount of charge, but we recommend a full charge before use. A full charge will take about 2 hours.

Components

Rear Camera
Flashlight

Front Camera

Speaker

Rotary Crown
Microphone

1.83 inch

Zinc Alloy Mid-frame

Magnetic
Charging

Note:
1. If the watch cannot be turned on, please charge it with a 5V voltage for 2-5 minutes to start up the watch.

OPERATION

Power on

Press and hold the rotary crown on the right side to turn on the watch.
Note: Please fully charge the battery before using the watch.

Power off & Restart

Press and hold the right rotary crown to enter the selection screen.
Tap [⏻] to turn off the watch.
Tap [↻] to restart.

Charging instructions

Turn the watch over,align and attach the charging pins to the charging contacts.You will see the charging icon on the watch screen after 5s.

Charging fully may take 2 hours. you will see the battery icon is full if the watch have been fully charged.

Before charging, please ensure the charging contacts are clean and free from any residue. Residual sweat can corrode the metal charging contacts, leading to potential risks. Charging should be supervised by a parent or guardian.

Low battery reminder:
If the battery is too low, the low battery warning screen is displayed. After the watch battery charge reminder, only the analog dial and digital can be seen. At this time, it needs to be charged immediately.

Battery Life

The time of the battery lasts between charges depends on usage. Like other electronic devices, more frequent usage will mean the battery will drain more quickly. Some activities will be more demanding

on the battery, such as taking photos and videos. The expected battery life is shown below. This is based on the assumption that the screen is turned off when not in use.

Note: Please do not use fast charge, charge at least once a week.

Condition	Battery Time
Low Usage	2 weeks
Typical Usage	2 ~ 3 days
Heavy Usage	1 day

Low Battery Reminder

There will be a reminder when the battery is below 30%, and you will not be able to play games when the battery is below 10%.

How To Operate Your Watch

Long press rotary crown to power on the watch.
Press the rotary crown to wake the watch up. Press the rotary crown for 3 seconds to wake up the watch from standby.
When the clock is displayed on screen, press the rotary crown to go to the home menu.
If the battery level is too low and cannot keep the clock running, you will need to enter the time and date again after recharging.
When the battery level is low, only the clock display function is available. We recommend recharging the battery as soon as possible before further use.

Input: DC 5V ⎓ 1A
IP Rating: IP65

TROUBLESHOOTING

Please check the troubleshooting steps outlined below, and if you still have any issues, contact supplier for support.

Problem	Solution
The watch is not turning on	● Hold the rotary crown for 3 seconds to turn off, then hold the rotary crown again to turn back on. ● Press and hold the rotary crown for 8 seconds to force restart the watch. Note: This action will reset the watch's time and date, requiring you to set them again.
The watch is not charging	● Try to charge the watch with a different magnetic charging cable. ● Check if the computer's USB port or adapter you are using to charge the device (not supplied) is working with other electronic devices. ● If still not working, perform the hard reset method as described above.

Screen display is abnormal	Hold the rotary crown for 3 seconds to turn off, then wait 30 seconds. Hold the rotary crown again turn back on.
Cannot connect to computer	Ensure the cable is securely connected at both ends. Hold the rotary crown for 3 seconds to turn off. Then wait 30 seconds. Hold the rotary crown again turn back on. Unplug from the computer and reconnect.
Image taken is not clear	Make sure the lighting conditions of the shooting environment are good. Check to see if the camera lens are clean. If you find some dust or dirt on it, please try blowing on the lens, and gently wiping the lens with a dry cloth.
Not enough memory/storage space	Try manually deleting data from the watch, or use the included data cable to transfer photos and audio files from the watch to your computer.
How to reset the watch	Settings > Factory Reset Note: This action will restore all watch settings to their factory defaults.

12 Month Warranty

Thank you for your purchase.

Your new product is warrantied to be free from defects in materials and workmanship for the period stated above, from the date of purchase, provided that the product is used in accordance with accompanying recommendations or instructions where provided. This warranty is in addition to your rights under the Australian Consumer Law. For New Zealand customers, this warranty is in addition to statutory rights observed under New Zealand legislation.

We will provide you with your choice of a refund, repair (where possible) or exchange (availability dependent) for this product if it becomes defective within the warranty period. The business will bear the reasonable expense of claiming the warranty. This warranty will no longer apply where the defect is a result of alteration, accident, misuse, abuse or neglect.

Please retain your receipt as proof of purchase and contact our Customer Service Centre as listed below, for the entity you purchased this product from, for any difficulties with your product. Warranty claims and claims for expense incurred in returning this product can be addressed to the respective Customer Service Centre.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
