## GUIDELINES FOR SAFE DRIVING:

1. Before children use this vehicle, an adult should carefully evaluate the driving area as well as the child's ability to drive the vehicle safely. Teach appropriate safety rules to your child before allowing operation of this vehicle. These rules should also be reviewed with other children who want to drive the vehicle.
2. Remain seated. A child who is not sitting on the seat when the vehicle is in motion could fall or cause the vehicle to tip over.
3. Do not operate the vehicle at night.
4. Do not operate the vehicle near steep inclines as it can cause the following:
  - Unsafe speed, even if the button is released.
  - Tipping
  - Loss of traction, causing the vehicle to slip.
  - Rolling backwards at an unsafe speed.
5. Avoid contact with moving/rotating parts, such as the motor, gear box, and wheels. Contact with these parts can cause serious injury.
6. Do not operate the vehicle when it's positioned on its side or upside-down.
7. Do not operate the vehicle near flammable vapours (gasoline, paint thinner, acetone, liquid wax, etc.) as the electrical switch emits an internal spark, which could cause an explosion or fire.
8. To prevent unsupervised use of the vehicle, disconnect the motor harness from the battery when the vehicle is not in use.

## CAUTION: TO AVOID BATTERY LEAKAGE

- DO NOT incinerate used batteries.
- DO NOT dispose of batteries in fire.
- DO NOT mix old and new batteries or types of batteries.
- DO NOT short-circuit the supply terminals.
- Different types of batteries should not be mixed.
- Only batteries of the same or equivalent type as recommended are to be used.
- Exhausted batteries should be removed from the toy.
- Dispose of batteries safely.

## WARNING:

TO REDUCE THE RISK OF INJURY, ADULT SUPERVISION IS REQUIRED, NEVER USE IN ROADWAYS, NEAR CARS, ON OR NEAR STEEP INCLINES OR STEPS, SWIMMING POOL OR OTHER BODIES OF WATER, ALWAYS WEAR SHOES, AND NEVER ALLOW MORE THAN ONE RIDER.

ATTENTION

Battery must be fully charged before use.

## WARNING:

ADULT ASSEMBLY REQUIRED.

## BATTERY CHARGING:

### To recharge battery

THIS SHOULD BE DONE BY AN ADULT.

RECHARGING TIME (APPROX. HOURS):

10  
APPROX.

Never charge the battery longer than 12 hours.

1. Only use the provided 6 volt charger to charge the 6 volt battery. Power source or wall outlet must be 120 VAC and 60Hz. If the wall outlet is controlled by an on/off switch ensure that the switch is on.
2. Charge the battery after every use.
3. Never charge the battery longer than 12 hours. Failure to follow these instructions may damage your battery.
4. Once the battery is completely charged, disconnect the charger from the wall outlet and remove the charger plug from the battery.
5. The battery does not need to be removed from the vehicle. Keep the battery in the rear compartment when charging.
6. Before charging the battery, examine the battery case for cracks and other damage which may cause sulfuric acid to leak. If damage is detected, do not use the product any further.
7. The car can not be operated when the charger is connected to the car.

PARTS LIST:

Body (x1)	Handlebar (x1)	Front Fork (x1)	Gearbox assembly (x1)	Front wheel (x2)
Rear wheel (x2)	Wheel Cap (x4)	Wheel Axle (x2)	Screw (x4)	Washer (x4)
Bolt (x1)	M8 Nut (x4)	Charger (x1)	Wrench (x2)	
Spare Hardware ( for future use ) : Please keep them away from small children				
Screw (x1)	Washer (x1)	M8 Nut (x1)	Tool required (not included)	
		Screwdriver (not included)		

DRIVING FUNCTION

**DRIVING**  
Press **F** in order to drive the vehicle **FORWARD** and **B** to drive the vehicle **BACKWARD** (in reverse). Put the vehicle in **OFF** before and after each use.

Once **F** or **B** have been selected, press the foot pedal to move forward, or backwards.

To **STOP**, release the foot pedal.

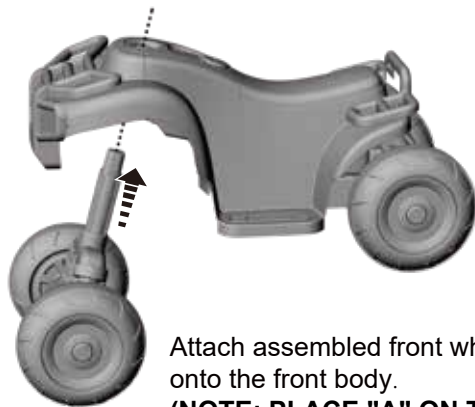

⚠ **WARNING:** TO AVOID SERIOUS INJURY:

- Continuous adult supervision required.
- Never use near motor vehicles, streets, swimming pools, hills, steps, or sloped driveways.
- Riders should always be seated.
- Never allow more than one rider.
- Always wear shoes.
- Maximum weight: 25 kg.
- Periodically check hardware and tighten if necessary. Replace worn or broken parts immediately.
- Do not recharge rechargeable battery without adult supervision.
- Only use the battery and charger specified by the manufacturer.
- The car can not be operated when the charger is connected to the car.
- Never use or store in wet conditions.
- For use in large open areas.Avoid collisions.
- Skill is required to avoid falls or collision.
- Never ride at night.

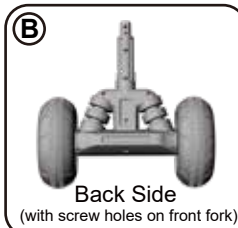

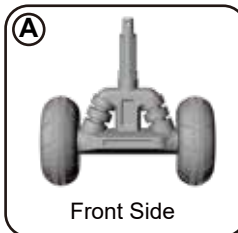

**VEHICLE CARE:** MAINTENANCE INSTRUCTIONS:

1. Oil or grease moving parts periodically.
2. Check nuts and bolts often and tighten if necessary.
3. Any parts showing evidence of wear should be replaced immediately.
4. It is the responsibility of the adult who assembles this product to properly install all parts included in the carton. These instructions are valuable.
5. Check all screws and their protective coverings regularly and tighten as required. Check plastic parts on a regular basis for cracks or broken pieces.
6. During snowy or rainy weather, the vehicle should be stored inside.
7. Avoid operating the vehicle in wet or snowy conditions. Do not clean the vehicle by spraying with a hose. Water or moisture in the seat compartment can cause the motor and other electrical components to corrode.
8. Avoid operating the vehicle on sand, loose dirt, or gravel. Debris from this type of terrain can cause the motor and other electrical components to fail.
9. To clean the vehicle use a dry cloth. A non-wax furniture polish can be used to clean plastic parts. Do not spray the vehicle with a hose or submerge in water.

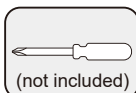

10

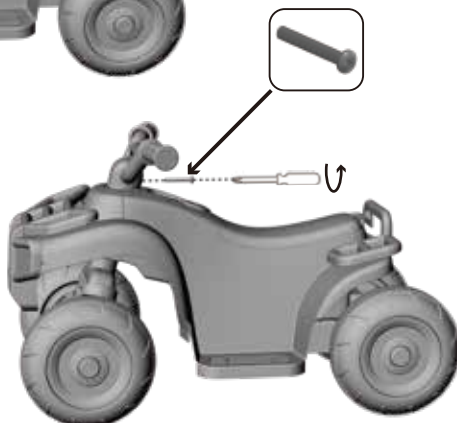

Attach assembled front wheels onto the front body.  
(NOTE: PLACE "A" ON THE FRONT)

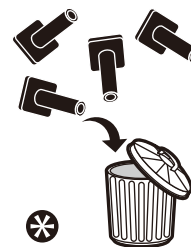

11

- Place the **HANDLEBAR** onto the front fork and align holes on handlebar & front fork.
- Insert the **BOLT** into hole on handlebar through the other side.
- Tighten the **BOLT** with a screwdriver (not included)

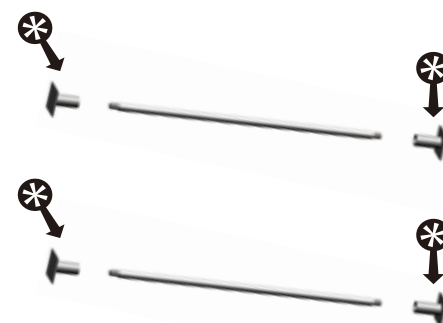

1

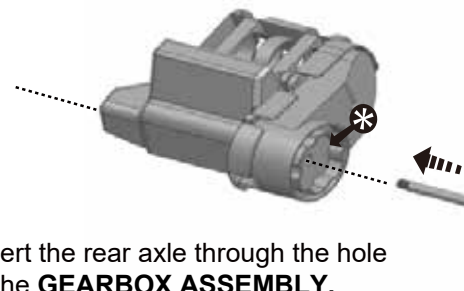

Remove the 4 rubber protectors from the wheel axles and dispose in the trash.

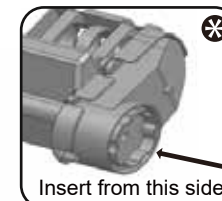

**Keep out of reach of children.**

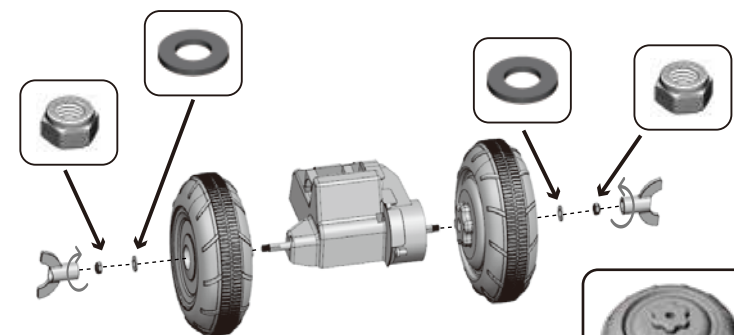

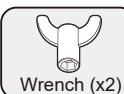

2

Insert the rear axle through the hole in the **GEARBOX ASSEMBLY**.

3

Insert **REAR WHEEL**, **WASHER**, **M8 NUT** into both sides of the the rear axle, then tighten the **M8 NUT** with **WRENCH**.
