## White Pet Enclosure

## Contents

A. Panel x 8pcs	B. Rubber Cap x 8pcs	C. Outdoor Stake x 4pcs	D. Pin x 8pcs
-----------------	----------------------	-------------------------	---------------

## **Instructions**

### **Step 1.**

Connect the panels (part A) with the pins (parts D) by threading the pin through the eyelets. Ensure that all panels are fully connected and the hooks on the pins are positioned outwards away from the animal.

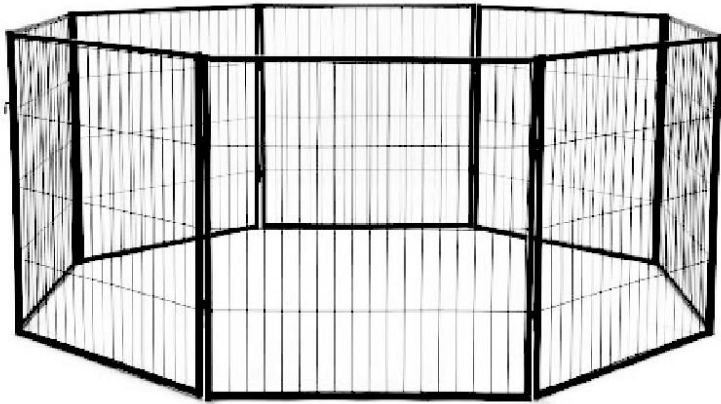

### **Step 2.**

Attach the rubber caps (part B) to the pins (parts D):

### Step 3.

Do this with all the remaining panels, pins and rubber caps until you have a set up enclosure:

### Step 4.

For outdoor use, please secure the enclosure by inserting outdoor stakes (Part C) into your lawn at the four corners. Refer to below image:

### **Warning**

Ensure that all panels are fully connected and the hooks on the pins are positioned outwards away from the animal.

Secure the enclosure by inserting outdoor stakes into lawn firmly.

Remove the rubber caps before disassembling the pins.

Always ensure that there is water available for your pet.

All animals behave differently and may warrant supervision.

Suitable for small animals only.

Recommended for outdoor use.
