10. Remove seat to access battery compartment.

11. Connect red terminal in battery compartment. 12. Reinstall seat.

nt. 12.Reinstall seat.

IV. Function and Operation

VI. Battery and Charger Operating Guide

1. The charging socket is on the car.
2. Only use the battery and charger provided.
3. Please do not play with the charger and battery because they are not toys.
4. The battery charging operation is carried out by adults only.
5. The battery shall be fully charged before first use; the battery charging time shall be 9-10 hours and can not exceed 15 hours.

1.Battery warning:

- 1) When storing the car for long periods of time, charge the battery until full then turn off the power switch. The battery should be recharged once every other month, or may otherwise have a shorter life span and risk deteriorating.
- 2) When installing the battery, it is important that the positive and negative poles are correctly connected. Short circuiting of positive and negative poles may result in damaging the toy.

To reduce the risk of injury, adult supervision is required. Strictly forbidden to use the roadways, near motor vehicles, slopes, swimming pools and where there is water. Please wear shoes and protective equipment (not included). The motor bike can only be used simultaneously by one person. Keep away from kids before assembled by adult, as there are potentially sharp edges, points, or small parts.

Do not mix alkaline battery, standard (carbon-zinc) battery or rechargeable (nickel-cadmium) battery.

Protective equipment should be worn (not included). Not to be used in traffic.
