LITHIUM BATTERY CHARGE INSTRUCTIONS

Attention: Do not charge battery immediately after each play, let the battery cool down for a while.

1. Turn off the dog.
2. Connect the supplied USB-C cable to the charging port on the dog, then plug the other end into a 5V d.c. 2A charger(not supplied) or a USB port. The charging light will light up when charging. When it has finished charging, the light turns off.
3. Disconnect the USB-C cable.

POWERING ON YOUR DOG

Once you have inserted batteries into your dog and remote control, you can go ahead and power on your dog. To do so, slide the ON/OFF switch located on the bottom of the dog to the ON position. When you do not operate the dog for about 1 minute, it will make a sound to remind you. A second sound will remind you at 2 minutes. When you do not operate the dog for 3 minutes, it will automatically power off, you can restart the ON/OFF switch to the ON position at the bottom of the dog to resume use. When you have finished playing with your dog, slide the ON/OFF switch to the OFF position. NOTE: When your dog is running low on power, it will make sounds to remind you, the power light will dim or some of the functions will not be available. Once the batteries are completely depleted, charge the battery of the dog and replace the batteries of the remote control as soon as possible to continue use.
